1 AN ACT *to amend* 97.22 (2) (a); and *to create* 97.20 (2) (e) 1m., 97.22 (11) and
2 97.24 (2m) of the statutes; **relating to:** the sale of unpasteurized milk products
3 and an exemption from rules and licensing and permitting requirements for
4 certain dairy farms.

Analysis by the Legislative Reference Bureau

Current law generally prohibits the sale of unpasteurized (commonly called raw) milk and other milk products and prohibits the sale to consumers of milk or fluid milk products that are not grade A milk or fluid milk products. Current law requires a dairy farmer to have a milk producer license from the Department of Agriculture, Trade and Consumer Protection (DATCP) and requires a grade A permit from DATCP to sell grade A milk. Also under current law, DATCP promulgates rules governing the operation of dairy farms and the testing and quality of milk.

This bill allows a dairy farmer to register with DATCP for the purpose of selling unpasteurized milk and milk products directly to consumers on the farm. Under the bill, a dairy farmer who is registered is not required to obtain a milk producer license or a grade A permit if the dairy farmer does not send any milk to a dairy plant (also called a processor) and sells no milk or milk products other than unpasteurized milk and milk products sold on the farm. A dairy farmer who registers with DATCP may sell unpasteurized milk and milk products if all of the following apply:

1. The dairy farmer or the consumer provides a clean container.
2. The milk or milk product is labeled with the name of the milk producer and with an indication that the milk or milk product is not pasteurized.

BILL

3. The dairy farmer posts a sign stating "Raw milk products sold here. Raw milk products are not pasteurized."

4. The unpasteurized milk complies with the DATCP rules for grade A milk concerning appearance and odor, bacterial count, drug residues, somatic cell count (a measure of milk quality), and pesticides and toxic substances.

5. The milk producer complies with the DATCP rules concerning the water supply for dairy operations.

Under the bill, DATCP's other rules governing the operation of dairy farms do not apply to a registered dairy farmer who does not have a license or a grade A permit.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
