Mike,

The 4 year licensing periods need to align with coroner terms. Coroners are elected with Governors, so we'll have to adjust the length of the first round of licenses.

Make sense?

Karl,

I am working on the amendment. The renewal date in the bill is 1/1/15, and every 4 years thereafter. However, due to the effective date in the bill, there is no way that the bill can be effective before 1/1/15. So the next renewal date would be 1/1/19. I thought I would check to see if you didn't want to simply advance the renewal date in the bill ahead 4 years to 1/1/19 (which would not be substantive change but would just make it a bit more clear), or perhaps to an entirely different 4-year cycle, such as 1/1/16 and every 4 yrs after that.

This is page 20, line 8, of the bill.

I'll figure out a way to do that. But just to confirm, if they fail to complete the training within 18 months, they get to keep their license for the remainder of the 4-year term and then they just wouldn't be able to renew it after that?

Staggering of terms:
Expiring 2016: coroners, DA Assoc, Police Chief Assoc.
2018: MEs, AG, Sheriffs Assoc
2020: Forensic Pathologists, public member

All new licensees should have 18 months to get their training, but their license renewal at the year should not be impeded. Does that cause drafting headaches?

Coroner changes

- We are changing the make up of the 11 person examing board to: 2 coroners or deputy coroners; 2 lay medical examiners or deputy medical examiners or investigators; 2 Board Certified forensic pathologist medical examiners or deputy medical examiners; 1 representative from the Wisconsin Sheriff's Association; 1 representative from the Wisconsin Chiefs or Police Association; 1 representative from the Wisconsin District Attorney's Association; the Attorney general or his or her designee, and one public member, appointed for six-year terms

Page 45, section 84 (1) provides for the staggering of the terms. Let me know if you would like to provide instruction about how to stagger the terms since you're changing the Board composition. Otherwise, I'll just do my best to spread them out.

- 463.05 (1) (e) (2) – change to If the license holder is a physician medical examiner not exempt under 463.10 (1) (b), send a statement to the county board or county executive, if applicable, of any county
- 463.10 (1) (b) – change to exempt physician MEs that are also American Board of Pathology Certified Forensic Pathologists and other Board Certified Forensic Anthropologist, and Board Certified Forensic Odontologists.
- Not sure best place to put this, but the 40 hour training requirement for initial licensees must be completed in their first 18 months. It would remain a 4 year license.

On page 24, line 3 of the draft, people who get their initial licenses within 1 year of the next renewal date don't have to complete the first 40 hours until their first renewal following a full, 4-year term (so they get that extra period of time, up to a year, to complete the training). Should those people get that extra time (up to a year) added to the 18 months (which would make it up to 30 months)? Or should everyone have to get the training within 18 months regardless of when the initial license was issued?

Please let me know if you have any questions. I would appreciate an estimate of when these could be ready so that we can plan our next steps.

Thanks!

Date

This amendment does the following with respect to the provisions relating to the Medicolegal Investigation Examining Board and licensure:

1. Modifies the composition of the board to reflect the requested changes, deleting certain members and adding others, and staggering the terms for initial appointments to the board in accordance with the instructions provided. Please review these changes carefully to ensure that they reflect the intent.

2. Requires completion of initial training within 18 months of the initial issuance of the license, regardless of when that initial license is issued. Note that, with these changes, an individual who was issued an initial license with less than 18 months to go before the next renewal date would be able to renew that one time, and then would be able to renew the next time following the completion of the training requirements within those 18 months (after that, renewals will require completion of continuing education). The amendment does not distinguish between such individuals who opt to complete the training requirements before that first renewal date and those who complete them after that date. Let me know if these changes are not in accordance with the intent, or if I can explain this further. ✓

3. Requires the board to revoke the license of a person who fails to complete that training within those 18 months and to, upon revocation, notify the appropriate official or entity that the person is no longer licensed, as they are required to do under the bill in the case of a failure to renew a license. ~~The amendment does not modify s. 463.10~~

(4).

X 4. Changes the concepts of "(non)physician medical examiner" to "(non)accredited medical examiner." Please review these changes especially carefully, as I had to look up on the various organizations' web sites to try to confirm the names of the organizations and the correct names of the relevant credentials. *Interact*

5. Advances the first renewal date to January 1, 2019, since January 1, 2015, will have already passed by the time the bill goes into effect. ✓

6. Makes other technical corrections to the provisions addressing when someone has his or her license revoked or when someone otherwise fails to renew his or her license to reflect the fact that, once the person has his or her license revoked or fails to renew his or her license, that person is no longer at that point actually a "license holder."

Once you have the chance to review this amendment, let me know if any other changes are needed. I can then prepare a /1 version.

Yes, the 16 hours should be waivable for initial license renewals of those already with a death investigation accreditation approved by the board at the time of initial licensure. The only accredited licensure exemptions should be doctors with the forensic training – is that who you are referring to?

Karl,

One more thing, just to check... We still have, for those issued a license who are serving when the bill passes, 24 hours of education + 16 hours of education, with the 16 waivable for those who have some kind of accreditation approved by the board. I just want to be sure you still want that, because, under the amendment, certain individuals who are accredited don't need a license *at all*. So I just want to confirm the 16-hour waiver is still needed and that the waiver isn't for those individuals who are already exempt from licensure.

Mike,

The amendment looks good, but we need one addition.

We want language like "basic 40 hour death investigation course" for training requirements in the first 18 months for new licensees who become coroners after this bill takes effect and are not exempted from training because of existing certification or exemption by the board. It is intended that they are required to have a basic, overview, survey, 101 course. Existing coroners at the time of bill's effect date, who receive initial licensure will still have to do the 40 hours (24+16 as described in the draft), but will have the full 4 years to complete.

This version includes the requested changes to the /P1 version. In addition, as I mentioned on the phone, I had to essentially move the nonstatutory material from SECTION 84 (2) of the bill into the statutes as s. 463.10 (3m) due to our drafting policies.

Again, I did not, in this amendment, affect anything in s. 463.10 (4) in the bill.
