**2013 BILL**

no changes

1 **AN ACT to repeal and recreate** 281.17 (8) (b) of the statutes; **relating to:**  
2 disinfection of drinking water supplied by a municipal water system.

---

***Analysis by the Legislative Reference Bureau***

Under current law, the Department of Natural Resources (DNR) administers a safe drinking water program. Current law prohibits DNR from requiring a municipal water system to provide continuous disinfection of the water that it provides unless federal law requires it or water quality data, well construction, or water system construction indicate a potential health hazard.

This bill requires a municipal water system to provide continuous disinfection of the water that it provides.

For further information see the **local** fiscal estimate, which will be printed as an appendix to this bill.

---

***The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:***

3 SECTION 1. 281.17<sup>x</sup> (8) (b) of the statutes is repealed and recreated to read:  
4 281.17 (8) (b) A municipal water system shall provide continuous disinfection  
5 of the water that it provides.

6 SECTION 2. **Effective date.**
