Hey Jamie,

The co-sponsorship memo looks fine to us. We'd also like to introduce a Senate companion if you don't mind contacting the drafter to give us permission to do so. Thanks,

Nathan

2013 BILL

X

gen

1 AN ACT to repeal 59.69 (3) (b) of the statutes; relating to: changing the elements
2 that must be included in a county development plan.

Analysis by the Legislative Reference Bureau

Under current law, a county may create a county zoning agency, which is a policy-making body in the county that determines the broad outlines and principles governing the county's administrative zoning powers. The county agency may direct the preparation of a county development plan. Currently, if a county creates a development plan, the plan must include a master plan adopted by a city or village. If one exists, it must also include, without changes, the city's or village's official map.

This bill repeals the requirement that a city's or village's master plan must be included in a county development plan and also repeals the requirement that any official map be included without changes.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 SECTION 1. 59.69 (3) (b) of the statutes is repealed.
