To: Tradewell, Becky
Subject: Bill draft request

Hi Becky,

Mark would like a bill drafted to do the opposite of WI Act 19 (AB 23) from last year. That was the bill the removed the previous requirement (in rules) requiring disinfection of public water systems. The original rule also reprioritized the safe drinking water loan program to give preference to these systems that need to upgrade their facilities to do this. Let me know if you have any questions.

Thanks,
Beth

LRB-1509/1
RCT.)...
SM

2013 BILL

Note

gen act

1 AN ACT ...; relating to: disinfection of drinking water supplied by a municipal
2 water system.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Natural Resources (DNR) administers a safe drinking water program. Current law prohibits DNR from requiring a municipal water system to provide continuous disinfection of the water that it provides unless federal law requires it or water quality data, well construction, or water system construction indicate a potential health hazard.

This bill requires a municipal water system to provide continuous disinfection of the water that it provides.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 SECTION 1. 281.17 (8) (b) of the statutes is repealed and recreated to read:
4 281.17 (8) (b) A municipal water utility shall provide continuous disinfection
5 of the water that it provides.

6 SECTION 2. Effective date.

RCT/.....

Sac

-date-

Beth Bier:

It seems as though there would need to be a delayed effective date to give municipalities time to implement continuous disinfection. The effective date in the draft is based on DNR's rule.

Please contact me with any questions or redraft instructions.
