**Department of Transportation
2013-2015 Biennial Budget Request
STATUTORY MODIFICATIONS**

DIN NUMBER:

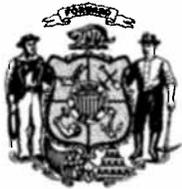

TOPIC Reduce Shelf Requirement

DESCRIPTION OF CHANGE:

Wisconsin Statutes 84.01(33) requires the Department to develop and maintain a 65% shelf of completed project designs. The Department requests reducing this requirement to 20%.

JUSTIFICATION

A 65% shelf requires approximately \$800 million in design inventory. The Department's budget would need to double in order to use all of the projects that are currently on the shelf. State and federal projections are not leaning toward budget increases. A 20% shelf requirement produces \$240 million in design inventory. This magnitude is sufficient for both let savings and additional funding. The reduction will draw down the consultant design spending over a period of two to three years.

HIGHWAYS

Under current law, beginning July 1, 2014, DOT must maintain an inventory of completed designs for highway projects under the major highway projects program and the reconditioning, reconstruction, and resurfacing projects program. The estimated costs of the inventory of projects for each program must be not less than 65 percent of the annual amount of funding provided to each program.

Under this bill, the estimated costs of the inventory of projects for each program must be not less than 20 percent of the annual amount of funding provided to each program.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

- 2 SECTION 1. 84.01 (33) (intro.) of the statutes is amended to read:
- 3 84.01 (33) HIGHWAY PROJECT DESIGN INVENTORY. (intro.) By July 1, 2014, and
- 4 continuously thereafter, the department shall maintain an inventory of completed
