17. *Parental Choice Programs -- Additional Accrediting Agency.* Add the Wisconsin Association of Christian Schools to the list of statutorily-recognized accrediting agencies for the parental choice programs.

19. *Parental Choice Programs -- Maintaining School Accreditation.* Require a private school in a parental choice program that has achieved accreditation to ensure that it continuously maintains accreditation from a statutorily-approved accreditation agency for as long as the school continues to participate in the program. Require a choice school to immediately notify DPI if its accreditation status with one of the statutorily-approved agencies changes.

Beginning in the 2013-14 school year, require a choice school to provide evidence demonstrating that the school remains accredited for the current year to DPI annually by January 15. Require the school to include as evidence of accreditation a letter prepared by one of the statutorily-approved accrediting agencies that confirms that the school is accredited by that agency as of the date of that letter. Specify that, if the State Superintendent determines that a school has not complied with these requirements, he or she may issue an order barring a choice school from participating in the program in the subsequent school year (consistent with the accreditation penalty provisions under current law). Require DPI to notify a choice school of receipt and approval of accreditation status within ten days after receiving the required information.

Require a choice school that would have been required to have achieved accreditation to demonstrate that its accreditation status is current with the above-described letter within 30 days of the effective date of the bill. Require the State Superintendent to issue an order barring a school's participation in the program in the current school year if the school does not provide that letter within the required time frame. Specify that this one-time requirement would not apply to new schools entering the program for the first time, schools that are preaccredited and in the three-year window to attain accreditation, and schools that had previously been exempt from the general accreditation requirement because it was approved for scholarship funding by PAVE.

Provide that, if the State Superintendent determines that a choice school has failed to continuously maintain accreditation, that a choice school has withdrawn from the accreditation process, or that a choice school's accreditation has been revoked by one of the statutorily-approved agencies, he or she must issue an order barring the school's participation in the program at the end of the current school year. Require the State Superintendent to immediately notify the parent or guardian of each pupil attending the school of the order. Provide that a school whose participation in the program has been barred under this provision may not participate in the program until the school demonstrates to the satisfaction of the Department that it has obtained accreditation from a statutorily-approved accrediting agency other than the agency with which the school failed to continuously maintain accreditation or, if the school's accreditation was revoked, other than the agency that revoked its accreditation.
