Hi Gordon,

I've received additional guidance on draft LRB 0897/1 (BB0315). Could you please redraft making the following changes?

- This will be standalone legislation that sets funding levels at \$10 million for each year (FY 13, FY14 and FY15)
  - One continuing appropriation to fund grants and administration
- Please remove the term "customized" and just use "workforce training"
- Provide that the training grants be allocated as follows:
  - Not more than 5% of grant funds can be used for initiatives that promote high-demand fields, as determined by DWD
  - More than 60% of grants be awarded for training new employees and/or for expanding businesses
  - Less than 40% of grants be awarded for training incumbent workers
- Include non-statutory language that directs DWD, Wisconsin Technical College System and Wisconsin Economic Development Corporation to coordinate on the evaluation and awards of workforce training grants

Please feel free to call me if you have any questions or concerns.

Thanks!

Hi Gordon,

I have some updated guidance on this draft. There will now be two separate appropriations:

1. One appropriation specifically for the workforce training grants. This should be a continuing appropriation with \$3 million in FY13, \$10 million in FY 14 and \$10 million in FY15 (and thereafter). Please remove any language related to parameters/percentages on how DWD should administer the grants and instead instruct DWD to use the funding for grants for training new or incumbent workers.
2. The second appropriation will be for administration. This should be a biennial appropriation with \$2 million in FY13, \$4.5 million in FY14 and \$500,000 in FY 15 (and thereafter).

Please feel free to give me a call if you have any questions or concerns about these changes – my number is 266-8219.

Thank you!!

Megan

OK, now back to the five percent. It sounds to me that the five percent for the high-demand initiative isn't for job training at all because the 60/40 split for new employees/ incumbent employees already occupies the universe for job training (60 plus 40 equals 100). So, up to five percent to promote employment in high-demand fields, then of the remainder, 60/40 for new/old employees.

So then you're saying that prior to July 1, 2016, DWD must consult with WTCS and WEDC in awarding grant. After that, DWD is on its own. That is the effect of making that provision a Nonstat.

You indicate that you want to fund the program for three fiscal years. So shouldn't the entire program sunset on July 1, 2016? If so, then I should draft the entire program as a Nonstatutory provision.

Hi Gordon,

1. Yes, the intent is for this draft to be introduced separately and not to be included in the budget.
2. My intent is for there to be some parameters on how DWD uses the grant funds without prescribing specific percentages. I'm trying to divvy up the pot of grant money so that the department can use some of the funds on initiatives that promote high-demand fields, but that use should not exceed 5% of the total grant funds. The remaining 95% (or all, if the department does not choose to use any on a high-demand field initiative) should be divided between grants for incumbent workers and grants for new employees and/or expanding businesses. Does that make sense? If there is a better way to accomplish this, please feel free to make adjustments as you see fit.
3. We want to keep that provision in nonstat language – it's ok that it will not extend beyond the next biennium.

Thanks Gordon!

Megan:

A few questions and comments:

1. What do you mean by "standalone legislation"? By "standalone legislation" do you mean that this draft will be introduced separately and not included in the budget? If so I'll have to enter a new drafting request so that it is not confused with a budget draft. If not, you will insert the appropriation amounts when DOA prepares the appropriation schedule.
2. You say that not more than five percent of grant funding may be used for high-demand fields, which implies that 95 percent of the funding must be used for low-demand fields. Is that your intent?
3. The LRB Drafting Manual permits a provision to be a Nonstatutory Provision only if its effect will not extend beyond July 1 of the next biennium, in this case, July 1, 2016. I'm assuming that the program will extend beyond that date, so I will go ahead and draft the coordination provision right in the statute.

Board

You have requested that the provision requiring DWD to consult with the Technical \* College System and the Wisconsin Economic Development Corporation be drafted as a nonstatutory provision. Joint Rule 53 (1) provides that "it is the policy of this state that law of continuing application is incorporated into the statutes." Therefore, because the consultation provision is drafted as a nonstatutory provision rather than being incorporated into the statutes, the consultation provision is a temporary, transitional provision and not a law of continuing application. Joint Rule 53 (2) (k) provides that temporary, transitional provisions, not extending beyond July 1 of the even-numbered year of the next biennial session, in this case, July 1, 2016, need not to be incorporated in the statutes. Accordingly, the draft provides that the consultation provision applies until July 1, 2016. If you want that provision to apply after that date, the provision needs to be moved to the statutes.

The budget act repeals and recreates the entire appropriation schedule. As such, if this draft were to take effect before the budget, the appropriation created in this draft would be repealed by the budget act. Accordingly, this draft includes an effective date provision providing that the draft takes effect on the day after publication or on the day after the budget takes effect, whichever is later.

As such, if this draft were to take effect before the budget, the appropriation created in this draft would be repealed by the budget act. Accordingly, this draft includes an effective date provision providing that the draft takes effect on the day after publication or on the day after the budget takes effect, whichever is later.

1(bm): \$180,000 GPR for the remainder of FY13, \$1.66 million GPR in FY 14 and \$3.16 million GPR in FY15

Any questions or concerns, please don't hesitate to give me a call at 266-8219.

Thanks, Gordon!

Also, require DWD to estimate amount actually needed for administration in FY 2014-15 & to request JCF to transfer monies to grants appropriation if amount actually needed is less than amount appropriated. If transfer is made, then base amount for next budget is amount in the schedule plus or minus the transfer.

The bill appropriates \$7,500,000 in each of fiscal years 2013-14 and 2014-15 to DWD for grants under the program (grants appropriation), and \$180,000 in fiscal year 2012-13, \$1,660,000 in fiscal year 2013-14, and \$3,160,000 in fiscal year 2014-15 to DWD for administration of the program (administration appropriation). If a transfer is made, the bill requires DWD, in submitting information to the Department of Administration for purposes of the 2015-17 biennial budget act, to submit a dollar amount for the grants appropriation as though the amount appropriated in fiscal year 2014-15 (base amount) is the amount shown in the appropriation schedule plus the amount transferred and to submit a dollar amount for the administration appropriation as though the base amount is the amount shown in the appropriation schedule minus the amount transferred.
