

**Fiscal Estimate Narratives**

**DNR 11/14/2013**

LRB Number <b>13-1746/1</b>	Introduction Number <b>AB-0472</b>	Estimate Type <b>Original</b>
<b>Description</b> Transfer of certain fish and game approvals to persons with disabilities		

**Assumptions Used in Arriving at Fiscal Estimate**

The bill allows for the transfer of certain approvals to persons who possess a valid Class A, Class B, Class C, or Class D disabled hunting permit issued under s. 29.193. Currently, approximately 15,500 non-expired Class A, B, C or D disabled hunting permits are issued to disabled individuals.

**Administrative Costs**

Under the bill, it is likely that the Department will receive an increase in application requests to transfer approvals, which will increase staff time to process approval transfer applications. However, the Department is not able to accurately predict the number of approvals that individuals will opt to transfer to a person with a disability, so the total increase in administrative costs resulting from processing transfer approvals is indeterminate.

**Long-Range Fiscal Implications**
