

Fiscal Estimate Narratives

PSC 4/10/2014

LRB Number 13-4134/1	Introduction Number AB-0900	Estimate Type Original
Description Energy supply and demand study and electric utility integrated resource plans		

Assumptions Used in Arriving at Fiscal Estimate

Assembly Bill 900 proposed a new 20-year study to be executed by the Commission. The bill does not address who would pay for such a study -- if it would be absorbed by the Commission via its remainder assessment or direct billed to the affected utilities -- but the Commission could comfortably absorb staff time and costs associated with such efforts.

Long-Range Fiscal Implications

see assumption above.
