

Fiscal Estimate Narratives

DNR 11/4/2013

LRB Number	13-3443/1	Introduction Number	SB-370	Estimate Type	Original
Description State procurement and construction contracts with disabled veteran-owned businesses					

Assumptions Used in Arriving at Fiscal Estimate

This bill requires at least a 1% preference for disabled veteran-owned businesses for state procurements and certain state construction projects.

The workload impact to Department staff of complying with this preference would be minimal. Furthermore, compliance when federal dollars are involved would not be possible due to federal law prohibiting the use of state-imposed preferences.

Long-Range Fiscal Implications
