

## WISCONSIN LEGISLATIVE COUNCIL AMENDMENT MEMO

**2013 Assembly Bill 742**

**Assembly  
Amendment 1**

*Memo published:* February 13, 2014

*Contact:* Mary Matthias, Principal Attorney (266-0932)

The bill makes various changes regarding the licenses to practice medicine and surgery and related credentials issued by the Medical Examining Board (MEB).

In general, to be eligible for a license to practice medicine, an individual must graduate from medical school, pass a medical licensing examination, and complete a specified amount of postgraduate training (commonly referred to as “residency”).

Assembly Amendment 1 (AA 1) pertains to the residency training requirements for license applicants who are graduates of foreign medical colleges. The bill requires that they must have successfully completed and received credit for 24 months of postgraduate training in an accredited program. The last 12 months of the training must be completed in a single program.

AA 1 provides that a graduate of a foreign medical school is also eligible to apply for a license if all of the following apply:

- The applicant’s currently enrolled in an accredited postgraduate training program.
- The applicant has completed and received credit for 12 consecutive months of postgraduate training in that program.
- The applicant has received an unrestricted endorsement from the program director that includes confirmation that the applicant is expected to continue in the program and complete at least 24 months of postgraduate training.

Under AA 1, the residency training requirements for graduates of foreign medical schools are the same as the requirements for graduates of U.S. medical schools.

**BILL HISTORY**

AA 1 was offered on February 10, 2014, by Representative Severson.

On February 12, 2014, the Assembly Committee on Health voted to recommend adoption of AA 1, and passage of the bill, as amended, on successive votes of Ayes, 11; Noes, 0.
