Prohibits a local governmental unit from requiring a person to take certain actions with respect to real property, or pay a related fee, before purchasing, taking fre owne? title to, or occupying the property. propert 2. Provides that a local governmental unit may require a real property owner to take certain actions with respect to property that are not related to purchasing or occupying the property. 3. Invalidates any ordinance, resolution, or policy currently in effect that is inconsistent with the prohibitions in the substitute amendment. 4. Provides that the prohibitions in the substitute amendment, and related prohibitions under current law, do not affect the ability of a local governmental unit to enforce any state or federal requirement. 5. Specifically prohibits a county from enacting a development moratorium. Prohibits a city, village, town, or county (political subdivision) from prohibiting or unreasonably restricting a real property owner from selling or

transferring title to any interest in the real property.

Individual notice requirements

This substitute amendment requires a political subdivision to provide written notice to a landowner, and annual notification to residents of a political subdivision that they may request such notice, that potential action by the political subdivision may affect the allowable use of the landowner's property. The substitute amendment also requires counties and towns to provide such notice if a proposed zoning ordinance will affect the size or density requirements of a landowner's property. In addition, the substitute amendment limits a political subdivision's authority under current law to impose a fee for providing notice to charges for 1st class mailings.

VESTED RIGHTS

If a specific and identifiable land development or use requires multiple approvals from one or more state agencies, the substitute amendment requires a state agency, in making its determinations with regard to any approval for that project, to apply the law that is in effect on the date on which the applicant applies for the first approval from any state agency for that project if the applicant identifies the full scope of the project at that time. The substitute amendment allows an applicant and a state agency to agree with respect to an approval from that state agency that the law at the time of application for the approval applies.

SHORELAND ZONING

Under current law, a county must enact a shoreland zoning ordinance for all shorelands in its unincorporated area and the ordinance must meet shoreland zoning standards established by DNR by rule. Current law defines shorelands to be the area within a certain distance from the OHWM of a navigable water. Current law requires a county to establish a shoreland setback area, which is an area within a certain distance of the OHWM in which the construction or placement of structures is limited or prohibited. Under this substitute amendment, if a professional land surveyor, in measuring a setback from an OHWM of a navigable water, relies on a map, plat, or survey that incorporates or approximates the OHWM, the setback measured is the setback with respect to a structure constructed on that property if the map, plat, or survey relied upon is prepared by a professional land surveyor and DNR has not identified the OHWM on its Internet site at the time the setback is measured.

Current law generally prohibits the enactment of a county shoreland zoning ordinance that prohibits or regulates the maintenance, repair, replacement, restoration, rebuilding, or remodeling of all or any part of a nonconforming structure if that activity does not expand the structure's footprint, and a county shoreland zoning ordinance that requires any approval or imposes any fee or mitigation requirement for, or otherwise prohibits or regulates, the vertical expansion of a nonconforming structure. This substitute amendment expands these prohibitions to a structure of which any part is legally located in the shoreland setback area by operation of a variance granted before July 13, 2015.

This substitute amendment provides that a shoreland zoning standard or ordinance may not prohibit placement of a device or system that retains runoff in a shoreland setback area.

The substitute amendment also provides that the construction or maintenance of property or equipment used for the transmission, delivery, or furnishing of natural gas, heat, light, or power and owned by a public utility or cooperative association organized for the purpose of producing or furnishing heat, light, or power to its members only is considered to satisfy shoreland zoning laws and a county's shoreland zoning ordinance if DNR has issued all required navigable water, water and sewage, and pollution discharge permits or approvals authorizing the construction or maintenance or, if no such permits or approvals are required, if the construction and maintenance is conducted in a manner that employs best management practices to infiltrate or otherwise control storm water runoff from that infrastructure.

RESOLUTION OF CHALLENGE TO ZONING RESTRICTIONS

This substitute amendment requires a court to resolve any ambiguity in a matter involving a zoning ordinance or shoreland zoning ordinance in favor of the free use of private property.

INS. 43

SUPERMAJORITY VOTE TO DOWN ZONE A PROPERTY

The substitute amendment allows a political subdivision to enact a down zoning ordinance only if the ordinance is approved by at least two-thirds of the members of its governing body. The substitute amendment defines a down zoning ordinance as an ordinance that affects an area of land by rezoning it to a usage that is less dense than its previous usage.

PROPERTY TAX TREATMENT OF UNDEVELOPED LAND

This substitute amendment defines, for property tax purposes, "undeveloped land" to include land that is platted and zoned for residential, commercial, or manufacturing use until such time that a permit is issued for constructing a building or other structure on the land. The substitute amendment provides that such land be assessed at its unimproved value, although the land is subject to a conversion charge if its assessment changes from agricultural to unimproved. Other undeveloped land under current law is assessed at 50 percent of its full value.

CONTESTED CASE HEARINGS > Swa

Under this substitute amendment, a person who has applied for a contract, permit, or other approval that is the subject of a contested case hearing for which the Division of Hearings and Appeals in the Department of Administration has assigned a hearing examiner may file one written request per hearing for a substitution of a new hearing examiner. If the request is timely and in proper form, the matter must be transferred to a new hearing examiner.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

Section 1. 20.932 of the statutes is created to read:

1 INSERT A3

Current law prohibits DNR from impairing the interest of a landowner in shoreland property by establishing a shoreland zoning standard, and prohibits a county from impairing the interest of a landowner in shoreland property by enacting or enforcing a shoreland zoning ordinance, that regulates certain activities in certain ways. These prohibited regulations include the prohibition or regulation of the maintenance, repair, replacement, restoration, rebuilding, or remodeling of all or any part of a nonconforming structure if that activity does not expand the structure's footprint and the prohibition or regulation of the vertical expansion of a nonconforming structure. This substitute amendment expands these prohibitions to a structure of which any part is legally located in the shoreland setback area by operation of a variance granted before July 13, 2015.

The substitute amendment also provides that if DNR or a county is prohibited from impairing the interest of a landowner in shoreland property by regulating an activity and if that activity requires a building permit, the city, village, or town that issues the building permit must send a copy of the building permit to the county clerk.

Under the substitute amendment, neither DNR nor a county shoreland zoning ordinance may prohibit the owner of a boathouse with a flat roof from using the roof as a deck if the roof has no side walls or screens or from having or installing a railing around the roof that is not inconsistent with Department of Safety and Professional Services standards.

impact analysis of a proposed administrative rule; the substitution of hearing examiners in Department of Natural Resources and Department of Agriculture, Trade and Consumer Protection contested cases; the standard for judicial review of a state agency action or decision affecting a property owner's use of the owner's property; and the property tax treatment of unoccupied property.

Analysis by the Legislative Reference Bureau INTRODUCTION

This substitute amendment makes various changes to the regulation of property rights and shoreland zoning, requires an economic impact analysis of a proposed administrative rule to analyze any limitations that the rule would place on the free use of private property, allows for the substitution of hearing examiners in contested case hearings, and requires a court to accord no deference to a state agency's interpretation of law when reviewing an agency action or decision that restricts a property owner's free use of the owner's property.

PROPERTY RIGHTS

PROCEDURAL PROTECTIONS

Restrictions on sale, purchase, development, or occupancy of real property

This substitute amendment does all of the following:

- 1. Prohibits a local governmental unit from requiring a person to take certain actions with respect to real property, or pay a related fee, before purchasing, taking title to, or occupying the property.
- 2. Provides that a local governmental unit may require a real property owner to take certain actions with respect to property that are not related to purchasing or occupying) the property.
- 3. Invalidates any ordinance, resolution, or policy currently in effect that is inconsistent with the prohibitions in the substitute amendment.
- 4. Provides that the prohibitions in the substitute amendment, and related prohibitions under current law, do not affect the ability of a local governmental unit to enforce any state or federal requirement.
 - 5. Specifically prohibits a county from enacting a development moratorium.
- 6. Prohibits a city, village, town, or county (political subdivision) from prohibiting or unreasonably restricting a real property owner from selling or transferring title to any interest in the real property.

Individual notice requirements

This substitute amendment requires a political subdivision to provide written notice to a landowner, and annual notification to residents of a political subdivision

that they may request such notice, that potential action by the political subdivision may affect the allowable use of the landowner's property. The substitute amendment also requires counties and towns to provide such notice if a proposed zoning ordinance will affect the size or density requirements of a landowner's property. In addition, the substitute amendment limits a political subdivision's authority under current law to impose a fee for providing notice to charges for 1st class mailings.

SHORELAND ZONING

Under current law, a county must enact a shoreland zoning ordinance for all shorelands in its unincorporated area and the ordinance must meet shoreland zoning standards established by DNR by rule. Current law defines shorelands to be the area within a certain distance from the OHWM of a navigable water. Current law requires a county to establish a shoreland setback area, which is an area within a certain distance of the OHWM in which the construction or placement of structures is limited or prohibited. Under this substitute amendment, if a professional land surveyor, in measuring a setback from an OHWM of a navigable water, relies on a map, plat, or survey that incorporates or approximates the OHWM, the setback measured is the setback with respect to a structure constructed on that property if the map, plat, or survey relied upon is prepared by a professional land surveyor and DNR has not identified the OHWM on its Internet site at the time the setback is measured.

Current law prohibits DNR from impairing the interest of a landowner in shoreland property by establishing a shoreland zoning standard, and prohibits a county from impairing the interest of a landowner in shoreland property by enacting or enforcing a shoreland zoning ordinance, that regulates certain activities in certain ways. These prohibited regulations include the prohibition or regulation of the maintenance, repair, replacement, restoration, rebuilding, or remodeling of all or any part of a nonconforming structure if that activity does not expand the structure's footprint and the prohibition or regulation of the vertical expansion of a nonconforming structure. This substitute amendment expands these prohibitions to a structure of which any part is legally located in the shoreland setback area by operation of a variance granted before July 13, 2015.

The substitute amendment also provides that if DNR or a county is prohibited from impairing the interest of a landowner in shoreland property by regulating an activity and if that activity requires a building permit, the city, village, or town that issues the building permit must send a copy of the building permit to the county clerk.

Under the substitute amendment, neither DNR nor a county shoreland zoning ordinance may prohibit the owner of a boathouse with a flat roof from using the roof as a deck if the roof has no side walls or screens or from having or installing a railing around the roof that is not inconsistent with Department of Safety and Professional Services standards.

This substitute amendment provides that a shoreland zoning standard or ordinance may not prohibit placement of a device or system that retains runoff in a shoreland setback area.

The substitute amendment also provides that the construction or maintenance of property or equipment used for the transmission, delivery, or furnishing of natural gas, heat, light, or power and owned by a public utility or cooperative association organized for the purpose of producing or furnishing heat, light, or power to its members only is considered to satisfy shoreland zoning laws and a county's shoreland zoning ordinance if DNR has issued all required navigable water, water and sewage, and pollution discharge permits or approvals authorizing the construction or maintenance or, if no such permits or approvals are required, if the construction and maintenance is conducted in a manner that employs best management practices to infiltrate or otherwise control storm water runoff from that infrastructure.

RESOLUTION OF CHALLENGE TO ZONING RESTRICTIONS

This substitute amendment requires a court to resolve any ambiguity in a matter involving a zoning ordinance or shoreland zoning ordinance in favor of the free use of private property.

SUPERMAJORITY VOTE TO DOWN ZONE A PROPERTY

The substitute amendment allows a political subdivision to enact a down zoning ordinance only if the ordinance is approved by at least two—thirds of the members of its governing body. The substitute amendment defines a down zoning ordinance as an ordinance that affects an area of land by rezoning it to a usage that is less dense than its previous usage.

PROPERTY TAX TREATMENT OF UNDEVELOPED LAND

This substitute amendment defines, for property tax purposes, "undeveloped land" to include land that is platted and zoned for residential, commercial, or manufacturing use until such time that a permit is issued for constructing a building or other structure on the land. The substitute amendment provides that such land be assessed at its unimproved value, although the land is subject to a conversion charge if its assessment changes from agricultural to unimproved. Other undeveloped land under current law is assessed at 50 percent of its full value. Generally, these provisions do not apply to land that is located in a tax incremental financing district.

This substitute amendment requires an economic impact analysis of a proposed administrative rule to include an analysis of the ways in which and the extent to which the proposed rule would place any limitations on the free use of private property, including a discussion of alternatives to the proposed rule that would minimize any such limitations.

CONTESTED CASE HEARINGS

Under this substitute amendment, a person who has applied for a contract, permit, or other approval that is the subject of a contested case hearing for which the Division of Hearings and Appeals in the Department of Administration has assigned a hearing examiner may file one written request per hearing for a substitution of a
