

## Fiscal Estimate Narratives

DATCP 1/8/2016

LRB Number	<b>15-4282/1</b>	Introduction Number	<b>SB-545</b>	Estimate Type	<b>Original</b>
<b>Description</b> Action required to be taken in response to a discharge of hazardous substances, exemption from liability for certain hazardous substance discharges, providing an exemption from emergency rule procedures, and granting rule-making authority					

### Assumptions Used in Arriving at Fiscal Estimate

DATCP would not oversee sediment clean-ups as part of the Voluntary Party Liability Exemption (VPLE) program. Therefore, the proposed law change would have no DATCP fiscal effect. The technical clarifications to existing law also have no DATCP fiscal effect.

Because DATCP would not be involved, DATCP is unable to determine if there would be any local government fiscal effect associated with the inclusion of contaminated sediment cleanups in the VPLE programs.

As the primary agency responsible for administering this law, DNR may find that the technical clarifications or the inclusion of sediment clean-ups in the VPLE will have a state or local government fiscal effect.

### Long-Range Fiscal Implications

The VPLE program for sediment clean-ups would have no long-term DATCP fiscal implications. As the primary agency responsible for administering this law, DNR may find that the technical clarifications or the inclusion of sediment clean-ups in the VPLE will have long-term state or local government fiscal implications.
