Description state agency goals for the generation or purchase of electric energy derived from renewable resources					

Assumptions Used in Arriving at Fiscal Estimate

This bill eliminates the requirement that the Department of Administration establish goals for certain state agencies to generate or purchase electric energy derived from renewable resources. The bill specifies that the elimination of that requirement does not require the modification or termination of any current contract into which a state agency entered in order to meet those goals.

State: No Effect

Repealing s. 16.75 (12) will have no effect on the Department because the goals outlined in statute had deadlines in 2007 and 2011, and contracts entered to meet those goals need to neither be modified nor terminated.
