## Assumptions Used in Arriving at Fiscal Estimate

The proposed legislation grants the Office of Educational Opportunity director of the University of Wisconsin System the ability to contract with one person to establish a 4-year pilot program creating one recovery charter school for no more than 15 high school students recovering from substance use disorder or dependency.

The proposed legislation would require insurers to cover medically necessary services provided in the school setting but only if the insurer already provides coverage for a substance use disorder or dependency.

The proposed legislation will not impact OCI nor will it add to the cost to regulate insurance in Wisconsin.
