Assumptions Used in Arriving at Fiscal Estimate

The disclosure provision, as prescribed in the bill, would require DOT's Division of Motor Vehicles (DMV), during the normal course of departmental business, to modify the existing version of the Wisconsin Buyers Guide for purposes of adding a new section relating to the presence of Vehicle Data Recorders in used vehicles offered for sale. This guide is currently available for sale to motor vehicle dealers through third-party vendors.

This bill is anticipated to have no fiscal impact on DOT.
