2017 SENATE BILL 534

Generally, 2017 Senate Bill 534 codifies certain practices of the Department of Safety and Professional Services, relating to delegation of plumbing and commercial building plan review and inspection to local units of government. The bill also creates an electronic renewal process for these delegations.

Under current law, certain local units of government may review alterations of buildings containing less than 100,000 cubic feet of volume. Senate Amendment 1 to the bill revises this authority to apply to *spaces involving* less than 100,000 cubic feet of volume.
