1 **Relating to:** opposing the development of Aquila Resources' Back Forty Project, a
2 proposed open pit metallic sulfide mine in the Upper Peninsula of Michigan.

3 Whereas, Aquila Resources' Back Forty Project, a proposed open pit metallic
4 sulfide mine, would be located in the Upper Peninsula of Michigan on the banks of
5 the Menominee River, which empties into Lake Michigan and is one of the largest
6 watersheds in Northern Wisconsin and Michigan's Upper Peninsula; and

7 Whereas, the Menominee River provides a unique habitat for species of special
8 concern such as lake sturgeon and freshwater mussels, which would be negatively

10 Whereas, the potential impacts of the mine include long term leaching of
11 acid-producing wastes into the groundwater and the river; and

12 Whereas, the hazardous wastes generated by the mine would degrade water
13 quality and present risks to human health and the environment in Wisconsin and
14 Michigan; and
