Analysis by the Legislative Reference Bureau

The Department of Justice currently administers an integrated crime alert network and may use the network to provide to state agencies, law enforcement, or the public information regarding criminal activity, crime prevention, and missing or endangered persons. This bill requires DOJ to allow law enforcement agencies to use the network to disseminate to broadcasters and outdoor advertisers reports of missing veterans or members of the armed forces who are at risk due to a physical or mental health condition that is related to their service.
