Subject: RE: Simple amendment to AB 44

Krista:

We would like charter schools to only apply to the barricade provision. We want a simple amendment to include a charter school solely within the confines of this legislation.

Subject: RE: Simple amendment to AB 44

Christopher:

Sections 3 and 4 of the bill relate to school safety plans. Under current law, "[e]ach school board and the governing body of each private school shall have in effect a school safety plan." Given this language, it appears that Melissa is correct: currently, independent charter schools are not required to have school safety plans, so the requirements the bill adds to school safety plans regarding barricade devices do not apply to independent charter schools. Which of the following approaches do you want to use to fix this issue?

1. Make all school safety plan requirements apply to independent charter schools. (Then, by extension, the barricade device requirements would also apply to independent charter schools.)
2. Create a separate provision that requires independent charter schools to develop guidelines and to provide training regarding barricade devices. (Under this alternative, independent charter schools will continue to be excluded from the other school safety plan requirements.)

Subject: Simple amendment to AB 44

Konrad:

In sections 3-4 of AB 44, we noticed that charter schools were exempt from the guidelines established by this bill. I was wondering if we could have a simple amendment drafted, before the hearing, to address the charter school issue.

If you have any questions, feel free to contact Melissa Schmidt at Legislative Council.

1 At the locations indicated, amend the bill as follows:

2 **1.** Page 3, line 22: after that line insert:

3 “**SECTION 4g.** 118.40 (2r) (de) of the statutes is created to read:

4 ~~118.40 (2r)~~ (de) The operator of a charter school authorized under this
5 subsection shall create guidelines for the use of any barricade device, as defined in
6 s. 101.14 (1) (d) 1. a., installed in a school building or facility and shall determine
7 which persons are required to receive training on the use of the barricade devices.

8 **SECTION 4r.** 118.40 (2x) (de) of the statutes is created to read:

9 ~~118.40 (2x)~~ (de) The operator of a charter school authorized under this
10 subsection shall create guidelines for the use of any barricade device, as defined in
11 s. 101.14 (1) (d) 1. a., installed in a school building or facility and shall determine
12 which persons are required to receive training on the use of the barricade devices.”.

****NOTE: The requirements created in this amendment that apply to independent charter schools differ from the requirements that apply to other schools because other schools are required to develop their requirements as part of a school safety plan. Because independent charter schools will develop these guidelines outside of the school safety plan context, they will not be required to, for example, develop the requirements "with the active participation of appropriate parties," such as the Department of Justice, local law enforcement, etc., nor will they be required to conduct an on-site safety assessment before creating the guidelines. See, for example, s. 118.07 (4) (b), stats.
