**Cc:** Schwerbel, Steven <[Steven.Schwerbel@legis.wisconsin.gov](mailto:Steven.Schwerbel@legis.wisconsin.gov)>  
**Subject:** Amendment to the Sub

Suggested technical amendment, using the substitute amendment as the base document...adding "in a rural area" on page 1, line 7 after "installed" and "in a rural area or underserved area" on page 1, line 10 after "installed."

(a) The property is installed **in a rural area** prior to January 1, 2020, and is used to provide Internet access service to a rural area at actual speeds that are at least a download speed of 25 megabits per second and an upload speed of 3 megabits per second.

(b) The property is installed **in a rural area or underserved area** after December 31, 2019, and is used to provide Internet access service to a rural **area** or underserved area at actual speeds that meet or exceed the higher of the following thresholds:

1. A download speed of 25 megabits per second and an upload speed of 3 megabits per second.
2. The download and upload speed benchmarks for fixed services as designated by the federal communications commission in its inquiries regarding advanced telecommunications capability under 47 USC 1302 (b).

Erika,

We would like to revise (2m) below, and include it in the amendment, LRB a0748/P1.

*(2m) "Rural area" means an area in this state that is located outside a federal metropolitan statistical area or is located in a city, village, or town with a population of not more than 14,000 **and a population density of not more than 2,500 per square mile.** For purposes of sub. (2) (a), the determination of whether an area meets the criteria of this subsection shall be made on the basis of the 2010 federal decennial census **for population totals and (however the drafter can capture this concept) using the attached January 2017 population density data available from the Department of Administration.***
