Hi Sarah,

Can we please have one small change to the attached draft?

### Section 2 (d)

The development or revision of the detailed action plan under sub. (1) with a range of actionable items for consideration by the legislature. The department shall identify in the plan proposed steps to reduce the impact of diabetes, prediabetes, and related diabetes complications and may also include associated comorbid conditions. The plan shall also identify expected outcomes of the proposed steps while also establishing benchmarks for controlling and preventing relevant forms of diabetes.

Let me know if you have any questions!

Best,

Hi Sarah,

Can we change the language to require DHS to coordinate with ETF to develop the action plan?

Additionally, we would like language in the bill that states DHS may coordinate with DPI and DOC in the plan creation as well.

We are very open to your suggestions on how to best accomplish this.
