Fiscal Estimate Narratives ETF 4/26/2019

LRB Number 19-2463/1	Introduction Number	AB-0164	Estimate Type	Original		
Description						
creditable military service under the Wisconsin Retirement System						

Assumptions Used in Arriving at Fiscal Estimate

This bill would allow Wisconsin Retirement System (WRS) participants, both active and inactive, who worked at the Department of Corrections (DOC) for at least 5 years and who terminates on or after the effective date of the bill to receive military service credits for any military service (current law requires that the service must have been performed prior to 1974). The bill eliminates the current law restriction on receiving military service credit for service that is also used to receive a federal retirement benefit. Additionally, the bill would allow for a participant to receive military service credits if that participant leaves WRS covered employment to enter military service and returns to any WRS covered employment within 180 days of discharge (current law requires the participant to return to the same WRS employer). Finally, the bill requires that DOC make additional contributions as determined by the actuary and approved by the ETF Board to cover the costs of granting the military service credits.

The Department determines military service credits at the time of retirement and is unable to determine how many WRS participants with 5 years of DOC employment may be eligible for these credits. An actuarial analysis would need to be completed to determine the potential costs to the WRS program. One-time administrative costs to ETF associated with the revision of forms and publications, training, computer program modifications, and participant inquiries would be incurred during the implementation year. In addition, on-going costs would increase due to the addition of 1.0 FTE to handle the on-going increase in participants requesting military service credits, increase in printing and other administrative costs, such as tracking and collecting the Department of Corrections related costs.

This fiscal estimate only addresses the administrative costs associated with this bill. As noted above, an actuarial analysis is needed to determine the costs to the program. The Joint Survey Committee on Retirement Systems is responsible for providing a fiscal estimate of the costs associated with the change in retirement benefits created by this bill.

Long-Range Fiscal Implications
