## Fiscal Estimate Narratives

DNR 12/9/2019

LRB Number	19-4274/1	Introduction Number	SB-611	Estimate Type	Original
<b>Description</b> increasing the waterfowl hunting stamp fee					

### Assumptions Used in Arriving at Fiscal Estimate

The bill increases the fee for the state waterfowl stamp from \$6.75 to \$11.75. In addition, it requires the department to prepare a biennial report for the legislature that identifies how the money received from waterfowl stamp fees is used for habitat projects.

#### I. Background Information

In accordance with NR 8.04 (2) (a), Wis. Adm. Code, the privileges conferred by the purchase of a state waterfowl stamp are distributed to the hunter as an "electronic" authorization imprinted on the issued approval through the licensing system. A person who does not require the stamp privilege to hunt, but who wishes to obtain one or more physical stamps may purchase "collector" stamps by completing and mailing an order form with payment to the department. Collector stamp orders are fulfilled by Customer Service staff via U.S. Mail.

#### II. Fiscal Estimate

##### A. Costs

###### 1. Bureau of Customer & Outreach Services

a. Training for Customer Service Representative (CSR) staff and license agents: [5 hrs. training development \* \$50/hr. (average policy advisor rate plus applicable fringe)] + [1 hour \* 100 CSRs \* \$24/hr. (average Customer Service Representative rate plus applicable fringe)] = \$2,650

b. Web page updates, collector stamp order form modification, and news release/social media efforts: 6 hrs. \* \$50/hr. (average policy advisor rate plus applicable fringe) = \$300

c. Automated license issuance system modifications: 20 hrs. \* \$50/ hr. (average business analyst rate plus applicable fringe) = \$1,000

d. Total one-time implementation costs of \$3,950 (\$2,650 + \$300 + \$1,000).

###### 2. Bureau Wildlife Management

The Department would incur approximately \$500 in costs every biennium to prepare the legislative report identifying how monies received from waterfowl stamp fees are used for habitat projects.

##### B. Revenue

###### 1. Waterfowl Stamp

State waterfowl stamp revenue will increase annually by \$5 for each waterfowl stamp sold. During license years 2016 - 2018, the department sold an average of 51,797 "electronic" state waterfowl stamps per year and 205 "collector" waterfowl stamps per year. Assuming the demand for waterfowl stamps sold each year remains constant, the total annual revenue increase is estimated at \$260,010 per year  $[(51,797 + 205) * \$5 = \$260,010]$  to be used for:

a. Habitat--developing, managing, preserving, restoring, and maintaining wetland habitat and for producing

waterfowl and ecologically related species of wildlife [20.370 (1)(hu)].

b. Propagation--the development of waterfowl propagation areas within Canada which will provide waterfowl for this state and the Mississippi flyway [20.370 (5)(aq)].

## 2. Patron License

The Conservation Patron license (i.e., Regular, Junior and Purple Heart categories) includes a waterfowl stamp as one of the privileges that the license offers. Moreover, the allocation of patron license revenue is, in part, based upon the price of the individual licenses included under the patron license. Therefore, a \$5 increase to the price of a waterfowl stamp would also increase funding for waterfowl habitat and propagation by way of an adjustment to the patron license revenue allocation formula.

In fiscal year 2019, a total of \$158,293 of revenue from Conservation Patron license sales was attributable to the Waterfowl stamp privileges. Based upon fiscal year 2019 conservation patron license sales, a \$5 increase to the waterfowl stamp would generate an additional \$109,325 of revenue from the patron license for waterfowl habitat and propagation work.

## 3. Total Revenue

Total annual revenue increase: \$369,335 (\$260,010 stamp + \$109,325 patron license)

## **Long-Range Fiscal Implications**
