2019 Senate Bill 170

Senate Amendment 1

2019 SENATE BILL 170

2019 Senate Bill 170 provides that a stand operated by a minor need not receive a retail food establishment license and that a place used for preparing food for sale at a stand operated by a minor need not obtain a food processing plant license from the Department of Agriculture, Trade, and Consumer Protection. Under the bill, a “stand operated by a minor” is a stand or other location at which goods are occasionally sold directly to consumers, that operates on a temporary, occasional basis, and that is operated solely by a person or persons under the age of 18 on private property with the permission of the property owner. The bill further prohibits a local unit of government from banning, or requiring a permit or license for, a stand operated by a minor.

SENATE AMENDMENT 1

Senate Amendment 1 specifies that goods sold at a stand operated by a minor may not include potentially hazardous food, which is defined as a food that requires temperature control because it is in a form capable of supporting rapid and progressive growth of infectious or toxigenic microorganisms, growth and toxin production of *Clostridium botulinum*, or, in raw shell eggs, growth of *Salmonella enteritidis*.

BILL HISTORY

Senator Kooyenga offered Senate Amendment 1 on April 30, 2019. On September 26, 2019, the Senate Committee on Public Benefits, Licensing, and State-Federal Relations unanimously recommended adoption of the amendment and passage of the bill, as amended.
