AMENDMENT MEMO

Memo published: February 18, 2020

Contact: David Moore, Senior Staff Attorney

2019 Senate Bill 736

**Senate
Amendment 1**

2019 SENATE BILL 736

2019 Senate Bill 736 authorizes the Department of Transportation (DOT) to issue an overweight permit for the transportation of the residue material resulting from treatment of municipal sewage for the purpose of processing on a vehicle or combination of vehicles that exceeds the maximum weight limitations by not more than 20,000 pounds. Under the bill, this type of permit also authorizes the return of the vehicle or combination of vehicles to the municipal sewage treatment facility while transporting the liquid removed from the residue material during processing, including any chemical treatment added to the liquid. An overweight permit for the transportation of municipal sewage residue does not apply on highways designated as part of the national system of interstate and defense highways.

SENATE AMENDMENT 1

Senate Amendment 1 limits the scope of vehicles for which DOT may issue an overweight permit for the transportation of municipal sewage residue to vehicle combinations with five or more axles.

BILL HISTORY

Senator Petrowski offered Senate Amendment 1 on February 3, 2020. On February 11, 2020, the Senate Committee on Transportation and Veterans Affairs voted unanimously to recommend adoption of Senate Amendment 1 and passage of Senate Bill 736, as amended.
