Assumptions Used in Arriving at Fiscal Estimate

2023 Senate Bill 940 would require any employee of a community-based residential facility (CBRF) who has regular, direct contact with facility residents to receive training on identifying and preventing human trafficking crimes within 60 days after starting employment and at least every two years thereafter.

The Department anticipates an increase in its survey workload if the provisions of this bill were to be implemented. The Department estimates that an additional hour per survey of CBRFs to discuss the new compliance standards and provide resources to meet the standard in the case of noncompliance. There are currently 1,557 CBRFs for which the Department provides oversight, The Department does not have sufficient staff to absorb the additional survey workload. Further, in the event of noncompliance, follow-up surveys must be conducted to ensure the facilities are back in compliance with state laws. The Department estimates it would need 0.75 FTE to meet the additional workload the provisions in this bill would create. The cost of 0.75 FTE Quality Assurance Program Specialists would be \$55,200 All Funds (\$27,800 GPR and \$27,400 FED).
