A request for an extension shall be submitted in writing not less than 10 days prior to the due date in sufficient detail to permit the commissioner to make an informed decision with respect to the requested extension. If an extension is granted in accordance with this subsection, a similar extension of 31 days is granted to the filing of management’s report of internal control over financial reporting.

(4) An insurer may not retain an accountant or accounting firm to comply with sub. (1) or s. [Ins 50.07](#) unless the accountant or accounting firm is an independent certified public accountant,

II with a written description of the nature of these differences.

(3) Include financial statements prepared in a form and using language and groupings substantially the same as the relevant sections of the annual statement of the insurer filed with the commissioner. The financial statement shall be comparative, presenting the amounts as of December 31 of the current year and the amounts as of the immediately preceding December 31, except in the first year in which an insurer is required to file an audited financial report, the comparative data may be omitted.

History: Cr. Register, July, 1993, No. 451, eff. 8-1-93; CR 01-050: renum. (2) (f) (intro.) and am., r. (2) (f) 1. and 2., Register October 2001 No. 550, eff. 11-1-01.

(b) File with the commissioner a copy of the letter required to be obtained under sub. (3).

(2) Insurers not retaining an independent certified public accountant on the effective date of this rule shall register the name and address of their retained independent certified public accountant not less than 6 months before the date when the first audited financial report is to be filed.

(3) An insurer shall obtain a letter from the independent certified public accountant it retains to conduct the annual audit

required by this subchapter. The letter shall state that the independent certified public accountant:

(a) Is aware of the provisions of the insurance code and the rules and regulations of the insurance department or equivalent agency of the state of domicile of the insurer that relate to accounting and financial matters of insurers; and

(b) Will express an opinion on whether the financial statements conform to the statutory accounting practices prescribed or otherwise permitted by that department or equivalent agency and will specify exceptions as appropriate.

(4) If an independent certified public accountant for the immediately preceding filed audited financial report of an insurer is dismissed or resigns, the insurer shall comply with all of the following:

(a) The insurer shall within 5 business days notify the commissioner of the dismissal or resignation.

(b) The insurer shall within 15 business days furnish the commissioner with a letter which clearly states that there was no disagreement required to be disclosed under this paragraph or which describes any disagreement between the insurer and the independent certified public accountant in the 24 months preceding the dismissal or resignation, which:

1. Was on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure; and

2. Would require the independent certified public accountant to make reference to the subject matter of the disagreement in connection with the opinion required under s. **Ins 50.06**. The requirement to provide a description applies regardless of whether the disagreement was resolved or whether the former independent certified public accountant was satisfied with the resolution.

(c) The insurer shall within 15 business days furnish the commissioner with a letter from the independent certified public accountant addressed to the insurer stating whether the independent certified public accountant agrees with the statements contained in the insurer's letter required under par. (b) and, if not, stating the reasons why not.

History: Cr. Register, July, 1993, No. 451, eff. 8-1-93.

Ins 50.08 Qualifications of independent certified public accountants. (1) The commissioner may rule that an accountant or accounting firm is not qualified for purposes of expressing an opinion on the financial statements in the annual audited financial report required under this subchapter and prohibit insurers from retaining the accountant or an accounting firm, and require insurers to replace the accountant or accounting firm, if the commissioner finds there is cause, including, but not limited to, a finding that the accountant or accounting firm:

(a) Is not in good standing with the American institute of certified public accountants and in all states in which the accountant or accounting firm is, or is required to be, licensed to practice, or, for a Canadian or British company, that it is not a chartered accountant;

(am) Has either directly or indirectly entered into an agreement of indemnification with respect to the audit of the insurer;

(b) Has not conformed to the standards of the accounting profession as contained in the code of professional ethics of the American institute of certified public accountants and rules and regulations and code of ethics and rules of professional conduct of the accounting examining board, or a similar code;

(c) Has been convicted of fraud, bribery, a violation of the Racketeer Influenced and Corrupt Organizations Act, **18 USC 1961 to 1968**, or any dishonest conduct or practices under federal or state law;

(d) Has been found to have violated the insurance laws or rules of this state; or

(e) Has demonstrated a pattern or practice of failing to detect or disclose material information in financial reports.

(2) After December 31, 1994, and prior to January 1, 2010, no accounting firm partner or other person responsible for rendering a report required of an independent certified public accountant may act in that capacity for more than 7 consecutive years. Following any period of service such a person shall be disqualified from acting in that or a similar capacity for the same company or its insurance subsidiaries or affiliates for a period of 2 years. Effective January 1, 2010, the lead or coordinating audit partner having primary responsibility for the audit may not act in that capacity for more than 5 consecutive years, including consecutive years immediately preceding January 1, 2010, and shall be disqualified from acting in that or a similar capacity for the same company or its insurance subsidiaries or affiliates for a period of 5 consecutive years. An insurer may make application to the commissioner for relief from the rotation requirement on the basis of unusual circumstances. The application should be made at least thirty days before the end of the calendar year. Factors the commissioner may consider in determining if the relief should be granted include, but are not limited to:

(a) Number of partners, expertise of the partners or the number of insurance clients in the currently registered firm;

(b) Premium volume of the insurer; or

(c) Number of jurisdictions in which the insurer transacts business.

(3) The insurer shall file with its annual statement filing the approval for relief from sub. (2) with the states that it is licensed in or doing business in and with the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer shall file the approval in an electronic format acceptable to the NAIC.

(4) (a) The commissioner shall not recognize as a qualified independent certified public accountant a person who, or accept an annual audited financial report prepared in whole or in part by a person who, provides to an insurer, contemporaneously with the audit, the following non-audit services:

1. Bookkeeping or other services related to the accounting records or financial statements of the insurer.

2. Financial information systems design and implementation.

3. Appraisal or valuation services, fairness opinions, or contribution in-kind reports.

4. Actuarially-oriented advisory services involving the determination of amounts reported in the financial statements. The accountant may assist an insurer in understanding the methods, assumptions and inputs used in the determination of amounts recorded in the financial statement only if it is reasonable to conclude that the services provided will not be subject to audit procedures during an audit of the insurer's financial statements. An accountant's actuary may also issue an actuarial opinion or certification "opinion" on an insurer's reserves if the following conditions have been met:

a. Neither the accountant nor the accountant's actuary has performed any management functions or made any management decisions;

b. The insurer has competent personnel, or engages a third party actuary, to estimate the reserves for which management takes responsibility; and

c. The accountant's actuary tests the reasonableness of the reserves after the insurer's management has determined the amount of the reserves;

5. Internal audit outsourcing services.

6. Management functions or human resources.

7. Broker or dealer, investment advisor, or investment banking services.

8. Legal services or expert services unrelated to the audit.

9. Any other services that the commissioner determines are impermissible. The commissioner may consider utilizing the

guidance provided in the Securities and Exchange Commission Final Rule No. 33-8183, Strengthening the Commission's Requirements Regarding Auditor Independence, adopted January 28, 2003, in order to evaluate whether the provision of such services impairs the independence of the accountant.

(b) In general, the principles of independence with respect to services provided by the qualified independent certified public accountant are largely predicated on three basic principles, violations of which would impair the accountant's independence. The principles are that the accountant cannot function in the role of management, cannot audit the accountant's own work, and cannot serve in an advocacy role for the insurer.

(5) Insurers having direct written and assumed premiums of less than \$ 100,000,000 in any calendar year may request an exemption from sub. (4) (a). The insurer shall file with the commissioner a written statement discussing the reasons why the insurer should be exempt from the provisions. If the commissioner finds upon review of the statement that compliance with sub. (4) (a) would constitute a financial or organizational hardship upon the insurer, an exemption may be granted.

(6) A qualified independent certified public accountant who performs the audit may engage in other non-audit services, including tax services, that are not described in sub. (4) (a) or that do not conflict with sub. (4) (b), only if the activity is approved in advance by the audit committee, in accordance with sub. (7), provided that the audit committee is in compliance with the Securities and Exchange Commission Final Rule 33-8183, Strengthening the Commission's Requirements Regarding Auditor Independence, adopted January 28, 2003.

(7) All auditing services and non-audit services provided to an insurer by the qualified independent certified public accountant of the insurer shall be preapproved by the audit committee. The preapproval requirement is waived with respect to non-audit services if the insurer is a SOX Compliant Entity or a direct or indirect wholly-owned subsidiary of a SOX Compliant Entity or:

(a) The aggregate amount of all such non-audit services provided to the insurer constitutes not more than five percent (5%) of the total amount of fees paid by the insurer to its qualified independent certified public accountant during the fiscal year in which the non-audit services are provided;

(b) The services were not recognized by the insurer at the time of the engagement to be non-audit services; and

(c) The services are promptly brought to the attention of the audit committee and approved prior to the completion of the audit by the audit committee or by one or more members of the audit committee who are members of the board of directors to whom authority to grant the approvals has been delegated by the audit committee.

(8) The audit committee may delegate to one or more designated members of the audit committee the authority to grant the preapprovals required by sub. (7). The decisions of any member to whom the authority is delegated shall be presented to the full audit committee at each of its scheduled meetings.

(9) (a) The commissioner shall not recognize an independent certified public accountant as qualified for a particular insurer if a member of the board, president, chief executive officer, controller, chief financial officer, chief accounting officer, or any person serving in an equivalent position for the insurer, was employed by the independent certified public accountant and participated in the audit of the insurer during the one-year period preceding the date that the most current statutory opinion is due. This paragraph shall only apply to partners and senior managers involved in the audit. An insurer may make application to the commissioner for relief from the requirement of this paragraph on the basis of unusual circumstances.

(b) The insurer shall file with its annual statement filing the approval for relief from par. (a) with the states that it is licensed in or doing business in and the NAIC. If the nondomestic state

accepts electronic filing with the NAIC, the insurer shall file the approval in an electronic format acceptable to the NAIC.

Ins 50.09 Consolidated or combined audits. An insurer may file audited consolidated or combined financial statements in lieu of separate annual audited financial statements required under this subchapter if the commissioner approves in writing and if the insurer is part of a group of insurers which utilizes a pooling or 100% reinsurance agreement that affects the solvency and integrity of the insurer's reserves and the insurer cedes all of its direct and assumed business to the pool. If the commissioner permits a consolidated report under this section the report shall include a columnar consolidating or combining work sheet, as follows:

(1) Amounts shown on the consolidated or combined audited financial report shall be shown on the work sheet.

(2) Amounts for each insurer subject to this section shall be stated separately.

(3) Noninsurance operations may be shown on the work sheet on a combined or individual basis.

(4) Explanations of consolidating and eliminating entries shall be included.

(5) A reconciliation shall be included of any differences between the amounts shown in the individual insurer columns of the work sheet and comparable amounts shown on the annual statements of the insurers.

History: Cr. Register, July, 1993, No. 451, eff. 8-1-93.

Ins 50.10 Scope of audit and report of independent certified public accountant. Financial statements furnished under s. Ins 50.06 shall be audited by the independent certified public accountant. The independent certified public accountant shall conduct the audit of the insurer's financial statements in accordance with generally accepted auditing standards. In accordance with AU Section 319 of the Professional Standards of the AICPA, Consideration of Internal Control in a Financial Statement Audit, the independent certified public accountant should obtain an understanding of internal control sufficient to plan the audit. To the extent required by AU Section 319, for those insurers required to file a management's report of internal control over financial reporting pursuant to s. Ins 50.17, the independent certified public accountant should consider, as that term is defined in Statement on Auditing Standards, SAS, No. 102, Defining Professional Requirements in Statements on Auditing Standards, or its replacement, the most recently available report in planning and performing the audit of the statutory financial statements. The independent certified public accountant shall give consideration to procedures illustrated in the financial condition examiner's handbook promulgated by the national association of insurance commissioners as the independent certified public accountant deems necessary. The commissioner may require that an independent certified public accountant conduct additional procedures or provide additional reports.

Ins 50.11 Notification of adverse financial condition. (1) An insurer shall require the independent certified public accountant to report, in writing and within 5 business days, to the board of directors of the insurer or its audit committee any determination by the independent certified public accountant that the insurer has materially misstated its financial condition as reported to the commissioner as of the balance sheet date currently under audit or that the insurer does not meet the minimum capital and surplus or compulsory surplus requirements.

(2) An insurer who receives a report required under sub. (1) shall forward a copy of the report to the commissioner within 5

business days of receipt of the report and shall provide the independent certified public accountant making the report with evidence that the report has been furnished to the commissioner.

(3) An independent certified public accountant shall furnish to the commissioner a copy of its report required under sub. (1) within 10 business days after it is furnished to the insurer under sub. (1) unless the independent certified public accountant receives evidence the insurer has provided it within the 10 business day period to the commissioner as required under sub. (2).

(4) An executive officer or director of an insurer which receives notice under sub. (1) shall report the notification in writing to the commissioner within 5 business days of the date the executive officer or director first acquires knowledge of the notification unless prior to that date the insurer complies with sub. (2).

(2) The background and experience in general, and the experience in audits of insurers of the staff assigned to the engagement and whether each is an independent certified public accountant. (3) That the accountant or accounting firm understands that the annual audited financial report and his or her opinion on the annual audited financial report will be filed in compliance with

Ins 50.15 Requirements for audit committees. (1) This section does not apply to foreign or alien insurers licensed in this state or an insurer that is a SOX Compliant Entity or a direct or indirect wholly-owned subsidiary of a SOX Compliant Entity.

(2) The audit committee shall be directly responsible for the appointment, compensation and oversight of the work of any accountant, including resolution of disagreements between management and the accountant regarding financial reporting, for the purpose of preparing or issuing the audited financial report or related work pursuant to this chapter. Each accountant shall report directly to the audit committee.

(2m) The audit committee shall be responsible for overseeing the insurer's internal audit function and granting the person or persons performing the function suitable authority and resources to fulfill their responsibilities if required by s. Ins 50.155.

(3) Each member of the audit committee shall be a member of the board of directors of the insurer or a member of the board of directors of an entity elected pursuant to sub. (6) and s. Ins 50.01 (1r).

(4) In order to be considered independent for purposes of this section, a member of the audit committee may not, other than in the capacity as a member of the audit committee, the board of directors, or any other board committee, accept any consulting, advisory or other compensatory fee from the entity or be an affiliated person of the entity or any subsidiary thereof. However, if a law requires board participation by otherwise non-independent members, the law shall prevail and the members may participate in the audit committee and be designated as independent for audit committee purposes, unless the members are an officer or employee of the insurer or one of its affiliates.

(5) If a member of the audit committee ceases to be independent for reasons outside the member's reasonable control, the member, with notice by the insurer to the commissioner, may remain an audit committee member of the insurer until the earlier of the next annual meeting of the insurer or one year from the occurrence of the event that caused the member to be no longer independent.

(6) To exercise the election of the controlling person to designate the audit committee for purposes of this chapter, the ultimate controlling person shall provide written notice to the commissioner of the affected insurers. Notification shall be made timely prior to the issuance of the audited financial report and include a description of the basis for the election. The election can be changed through notice to the commissioner by the insurer, which shall include a description of the basis for the change. The election shall remain in effect for perpetuity, until rescinded.

(7) (a) The audit committee shall require the independent certified public accountant that performs for an insurer any audit required by this chapter to timely report to the audit committee in accordance with the requirements of SAS 61, Communication with Audit Committees, or its replacement, including:

1. All significant accounting policies and material permitted practices.

2. All material alternative treatments of financial information within statutory accounting principles that have been discussed with management officials of the insurer, ramification of the use of the alternative disclosures and treatments, and the treatment preferred by the independent certified public accountant.

3. Other material written communications between the independent certified public accountant and the management of the insurer, such as any management letter or schedule of unadjusted differences.

(b) If an insurer is a member of an insurance holding company system, the reports required by sub. (7) (a) may be provided to the audit committee on an aggregate basis for insurers in the holding company system, provided that any substantial differences among insurers in the system are identified to the audit committee.

(8) The proportion of independent audit committee members shall meet or exceed the criteria contained in the following table unless the commissioner orders a greater proportion of independent audit committee members:

Prior Calendar Year Direct Written and Non-Affiliated Assumed Premiums		
\$0 – \$300,000,000	\$300,000,000 – \$500,000,000	Over \$500,000,000
No minimum requirements.	Majority (50% or more) of members shall be independent.	Supermajority of members (75% or more) shall be independent.

(9) An insurer with direct written and assumed premium, excluding premiums reinsured with the Federal Crop Insurance Corporation and Federal Flood Program, less than \$ 500,000,000 may make application to the commissioner for a waiver from this section based upon hardship. The insurer shall file with its annual statement filing the approval for relief from the requirements of this section with the states that it is licensed in or doing business in and the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer shall file the approval in an electronic format acceptable to the NAIC.

Ins 50.155 Internal audit function requirements.

(1) An insurer is exempt from the requirements of this section if both of the following conditions are true:

(a) The insurer has total annual direct written and unaffiliated assumed premiums, including international direct and assumed premiums but excluding premiums reinsured with the Federal Crop Insurance Corporation and Federal Flood Program, less than \$500,000,000.

(b) The insurer is a member of a group of insurers and the group has total annual direct written and unaffiliated assumed premiums, including international direct and assumed premiums but excluding premiums reinsured with the Federal Crop Insurance Corporation and Federal Flood Program, less than \$1,000,000,000.

(2) An insurer or group of insurers shall establish an internal audit function providing independent, objective, and reasonable assurance to the audit committee and insurer management regarding the insurer's governance, risk management, and internal controls. This assurance shall be provided by performing general and specific audits, reviews, and tests and by employing other techniques deemed necessary to protect assets, evaluate control effectiveness and efficiency, and evaluate compliance with policies and regulations.

(3) In order to ensure that internal auditors remain objective, the internal audit function must be organizationally independent. Specifically, the internal audit function will not defer ultimate judgment on audit matters to others, and the insurer or group of insurers shall appoint an individual to head the internal audit function who will have direct and unrestricted access to the board of directors. Organizational independence does not preclude dual-reporting relationships.

(4) The head of the internal audit function shall report to the audit committee regularly, but no less than annually, on the periodic audit plan, factors that may adversely impact the internal audit function's independence or effectiveness, material findings from completed audits, and the appropriateness of corrective actions implemented by management as a result of audit findings.

(5) If an insurer is a member of an insurance holding company system, as defined in s. Ins 40.01 (6), or included in a group of insurers, the insurer may satisfy the internal audit function requirements set forth in this section at the ultimate controlling parent level, an intermediate holding company level, or the individual legal entity level.

(b) Omit to state, or cause another person to omit to state, any material fact necessary in order to make statements made, in light of the circumstances under which the statements were made, not misleading to an accountant in connection with any audit, review or communication required under this chapter.

(2) No officer or director of an insurer, or any other person acting under the direction thereof, shall directly or indirectly take any action to coerce, manipulate, mislead or fraudulently influence any independent certified public accountant engaged in the performance of an audit pursuant to this chapter if that person knew or should have known that the action, if successful, could result in rendering the insurer's financial statements materially misleading. In this subsection, actions that "if successful, could result in rendering the insurer's financial statements materially misleading" include actions taken at any time with respect to the professional engagement period to coerce, manipulate, mislead or fraudulently influence an independent certified public accountant:

(a) To issue or reissue a report on an insurer's financial statements that is not warranted in the circumstances, due to material violations of statutory accounting principles prescribed by the commissioner, generally accepted auditing standards, or other professional or regulatory standards.

Management's report of internal control over financial reporting shall be as of December 31 immediately preceding.

(2) Notwithstanding the premium threshold in sub. (1), the commissioner may require an insurer to file management's report of internal control over financial reporting if the insurer is in any risk based capital event as described in s. Ins 51.01, or the insurer is in financially hazardous condition.

(3) In lieu of the management's report of internal control over financial reporting, an insurer or a group of insurers may file a report described in sub. (4) if any of the following criteria are applicable:

(a) The insurer is directly subject to Section 404.

financial statements and those internal controls were not included in the scope of the Section 404 report, the insurer or group of insurers may either file:

(a) A management's report of internal control over financial reporting pursuant to sub. (1) or (2); or

(b) The Section 404 report and a management's report of internal control over financial reporting for those internal controls that have a material impact on the preparation of the insurer's or group of insurers' audited statutory financial statements not covered by the Section 404 report.

(5) Management's report of internal control over financial reporting shall include:

(a) A statement that management is responsible for establishing and maintaining adequate internal control over financial reporting.

(b) A statement that management has established internal control over financial reporting and an assertion to the best of management's knowledge and belief, after diligent inquiry, as to whether its internal control over financial reporting is effective to provide reasonable assurance regarding the reliability of financial statements in accordance with statutory accounting principles.

(g) Signatures of the chief executive officer and the chief financial officer, or equivalent position or title.

(a) Management shall have discretion as to the nature of the internal control framework used, and the nature and extent of documentation, in order to make its assertion in a cost effective manner and, as such, may include assembly of or reference to existing documentation.

(b) Management's report on internal control over financial reporting, required by this section, and any documentation provided in support thereof during the course of a financial condition examination, shall be kept confidential.

(2) An exemption may be granted at any time and from time to time for a specified period.

(3) The commissioner may determine the nature and scope of an examination. An examination may, but need not, cover all aspects of the insurer's assets, condition, affairs and operations, and may involve or be supplemented by review of audit procedures performed by accountants. Examinations may include, but are not limited to, the following types of examinations:

This privilege applies to information obtained, produced or created before or after the effective date of s. 601.465, Stats., and regardless of whether an inquiry, investigation or examination has been concluded, except it does not apply to a document which is an adopted examination report. An adopted examination report is available for public inspection as required under s. 601.44 (6), Stats. The office or the commissioner may disclose the content of an examination report, preliminary examination report or results, or any matter relating a report or the results of an examination to further legal or regulatory action, or to the insurance department of any other state or country or to law enforcement officials of this or any other state or agency of the federal government, so long as the department, agency or office agrees in writing to hold it confidential.

Ins 3.17, the company shall establish such additional reserve.

(b) A scope paragraph identifying the subjects on which an opinion is to be expressed and describing the scope of the appointed actuary’s work, including a tabulation delineating the reserves and related actuarial items which have been analyzed for asset adequacy and the method of analysis, and identifying the reserves and related actuarial items covered by the opinion which have not been so analyzed;

(c) A reliance paragraph describing those areas, if any, where the appointed actuary has deferred to other experts in developing data, procedures or assumptions, including anticipated cash flows from currently owned assets and variation in cash flows according to economic scenarios, supported by a statement of each such expert in the form prescribed by sub. (5); and

(d) An opinion paragraph expressing the appointed actuary’s opinion with respect to the adequacy of the supporting assets to mature the liabilities.

(e) One or more additional paragraphs will be needed in individual company cases as follows:

2. If the appointed actuary must disclose an inconsistency in the method of analysis or basis of asset allocation used at the prior opinion date with that used for this opinion.

3. If the appointed actuary must disclose whether additional reserves of the prior opinion date are released as of this opinion date, and the extent of the release.

4. If the appointed actuary chooses to add a paragraph briefly describing the assumptions which form the basis for the actuarial opinion.

(2) RECOMMENDED LANGUAGE. The following paragraphs are to be included in the statement of actuarial opinion in accordance with this section. The language provided in this subsection is that which in typical circumstances should be included in a statement of actuarial opinion. The language may be modified as needed to meet the circumstances of a particular case, but the appointed actuary shall use language which clearly expresses his or her professional judgment. However, in any event the opinion shall retain all pertinent aspects of the language provided in this section.

(a) The opening paragraph should generally indicate the appointed actuary’s relationship to the company and his or her qualifications to sign the opinion.

1. For a company actuary, the opening paragraph of the actuarial opinion should read as follows: “I, [name], am [title] of [insurance company name] and a member of the American Academy of Actuaries. 1. The additional actuarial reserves are the reserves established under s. Ins 50.75 (5) (b).

quacy analysis referred to in s. Ins 50.75 (4), by means of symbols which should be defined in footnotes to the table.

3. The AVR shall be the allocated amount of asset valuation reserve.

(c) If the appointed actuary has relied on other experts to develop certain portions of the analysis, the reliance paragraph

should include a statement such as the following: “I have relied on [name], [title] for [insert description of a portion relied upon such as anticipated cash flows from currently owned assets, including variations in cash flows according to economic scenarios] and, as certified in the attached statement. I have reviewed the information relied on for reasonableness.”

(cg) A statement of reliance on other experts shall be accompanied by a statement by each of such experts in the form prescribed by sub. (5).

(d) If the appointed actuary has examined the underlying asset and liability records, the reliance paragraph shall also include the following: “My examination included such review of the actuarial assumptions and actuarial methods and of the underlying basic asset and liability records and such tests of the actuarial calculations as I considered necessary. I also reconciled the underlying basic asset and liability records to [exhibits and schedules listed as applicable] of the company’s current annual statement.”

(e) If the appointed actuary has not examined the underlying records, but has relied upon data, such as listings and summaries of policies in force or asset records, prepared by the company, the reliance paragraph shall include a statement such as: “In forming my opinion on [specify types of reserves] I relied upon data prepared by [name and title of company officer certifying in force records or other data] as certified in the attached statements. I evaluated that data for reasonableness and consistency. I also reconciled that data to [exhibits and schedules to be listed as applicable] of the company’s current annual statement. In other respects, my examination included review of the actuarial assumptions and actuarial methods used and tests of the calculations I considered necessary.”

(eg) A section described in par. (e) shall be accompanied by a statement by each person relied upon in the form prescribed by sub. (5).

(f) The opinion paragraph should include all of the following:

1. “In my opinion the reserves and related actuarial values concerning the statement items identified above:

a. Are computed in accordance with presently accepted actuarial standards consistently applied and are fairly stated, in accordance with sound actuarial principles;

b. Are based on actuarial assumptions which produce reserves at least as great as those called for in any contract provision as to reserve basis and method, and are in accordance with all other contract provisions;

c. Meet the requirements of the insurance law and rules of the state of [state of domicile] and are at least as great as the minimum aggregate amounts required by the state in which this statement is filed, unless alternative language is approved under sub. (6).

d. Are computed on the basis of assumptions consistent with those used in computing the corresponding items in the annual statement of the preceding year–end (with any exceptions noted below);

e. Include provision for all actuarial reserves and related statement items which ought to be established.

f. The reserves and related items, when considered in light of the assets held by the company with respect to the reserves and related actuarial items including, but not limited to, the investment earnings on the assets, and the considerations anticipated to be received and retained under the policies and contracts, make adequate provision, according to presently accepted actuarial standards of practice, for the anticipated cash flows required by the contractual obligations and related expenses of the company.

g. The actuarial methods, considerations and analyses used in forming my opinion conform to the appropriate Standards of Practice as promulgated by the actuarial standards board, which standards form the basis of this statement of opinion.”

1m. The commissioner may approve omission of the language in subd. 1. f. for an opinion filed on behalf of a company doing business only in this state and in no other state.

2. The appropriate one of the following 2 paragraphs:

a. This opinion is updated annually as required by statute. To the best of my knowledge, there have been no material changes from the applicable date of the annual statement to the date of the rendering of this opinion which should be considered in reviewing this opinion.” or

b. “The following material change(s) which occurred between the date of the statement for which this opinion is applicable and the date of this opinion should be considered in reviewing this opinion: (Describe the change or changes.)“

3. “The impact of unanticipated events subsequent to the date of this opinion is beyond the scope of this opinion. The analysis of asset adequacy portion of this opinion should be viewed recognizing that the company’s future experience may not follow all the assumptions used in the analysis.

Signature of Appointed Actuary

Address of Appointed Actuary

Telephone Number of Appointed Actuary

Date

(3) ASSUMPTIONS FOR NEW ISSUES. The adoption for new issues or new claims or other new liabilities of an actuarial assumption which differs from a corresponding assumption used for prior new issues or new claims or other new liabilities is not a change in actuarial assumptions within the meaning of this section.

(4) ADVERSE OPINIONS. If the appointed actuary is unable to form an opinion, then he or she shall refuse to issue a statement of actuarial opinion. If the appointed actuary’s opinion is adverse or qualified, then he or she shall issue an adverse or qualified actuarial opinion explicitly stating the reason for such opinion. This statement should follow the scope paragraph and precede the opinion paragraph.

(5) RELIANCE ON INFORMATION FURNISHED BY OTHER PERSONS. If the appointed actuary relies on the certification of others on matters concerning the accuracy or completeness of any data underlying the actuarial opinion, or the appropriateness of any other information used by the appointed actuary in forming the actuarial opinion, the actuarial opinion shall indicate the persons the actuary is relying upon and a precise identification of the items subject to reliance. In addition, the persons on whom the appointed actuary relies shall provide a certification that precisely identifies the items on which the person is providing information and a statement as to the accuracy, completeness or reasonableness, as applicable, of the items. This certification shall include the signature, title, company, address and telephone number of the person rendering the certification, as well as the date on which it is signed.

(6) ALTERNATE OPTION. (a) The commissioner has authority under ch. 623, Stats., to accept the valuation of a foreign insurer when that valuation meets the requirements applicable to a company domiciled in this state in the aggregate. As an alternative to the requirements sub. (2) (f) 1. c., the commissioner may, by written approval issued to a specific insurer, allow the opining actuary to use one or more of the following additional approaches:

1. A statement that the reserves “meet the requirements of the insurance laws and regulations of the State of [state of domicile] and the formal written standards and conditions of this state for filing an opinion based on the law of the state of domicile.” If the commissioner chooses to allow this alternative, the commissioner’s approval shall provide instructions with a list of standards and conditions. If a company chooses to use this alternative, the commissioner’s approval, including standards and conditions for that approval in effect on July 1 of a calendar year, shall apply to state-

ments for that calendar year, and they shall remain in effect until they are revised or revoked. The commissioner will not grant approval under this subdivision unless instructions are included with standards and conditions.

2. A statement that the reserves “meet the requirements of the insurance laws and regulations of the State of [state of domicile] and I have verified that the company’s request to file an opinion based on the law of the state of domicile has been approved and that any conditions required by the commissioner for approval of that request have been met.” This alternative may be used only if the commissioner issues a formal written statement of such allowance no later than March 31 of the year it is first effective. It shall remain valid until rescinded or modified by the commissioner. The rescission or modifications shall be issued no later than March 31 of the year they are first effective. Subsequent to that statement being issued, if a company chooses to use this alternative, the company shall file a request to do so, along with justification for its use, no later than April 30 of the year of the opinion to be filed. The request is deemed approved on October 1 of that year if the commissioner has not denied the request by that date.

3. A statement that the reserves “meet the requirements of the insurance laws and regulations of the State of [state of domicile]

and I have submitted the required comparison as specified by this state.” This alternative statement may be used only if the commissioner gives written approval to the specific insurer, with instructions for a written list of products, to be added to the table in subd. 3. a., for which the required comparison shall be provided. If a company chooses to use this alternative, the approved instructions in effect on July 1 of a calendar year shall apply to statements for that calendar year, and the approval and instructions shall remain in effect until they are revised or revoked. This alternative is not available unless the commissioner approves and includes instructions. If a company uses this alternative, the appointed actuary shall provide a comparison of the gross nationwide reserves held to the gross nationwide reserves that would be held under NAIC codification standards. The comparison provided by the company is to be kept confidential to the same extent and under the same conditions as the actuarial memorandum. Gross nationwide reserves are the total reserves calculated for the total company in force business directly sold and assumed, indifferent to the state in which the risk resides, without reduction for reinsurance ceded. The information provided shall comply with the commissioner’s instructions and shall include at least all the following:

a. A table as follows:

(1) Product Type	(2) Death Benefit or Account Value	(3) Reserves Held	(4) Codification Reserves	(5) Codification Standard

b. The information listed shall include all products identified by either the state of filing or any other states subscribing to this alternative.

c. If there is no codification standard for the type of product or risk in force or if the codification standard does not directly address the type of product or risk in force, the appointed actuary shall provide detailed disclosure of the specific method and assumptions used in determining the reserves held.

(b) The comparison provided by the company under par. (a) shall be kept confidential to the same extent and under the same conditions as the actuarial memorandum.

(c) Notwithstanding par. (a), the commissioner may reject an opinion based on the laws and regulations of the state of domicile and require an opinion based on the laws of this state. The commissioner may contract an independent actuary at the company’s expense to prepare and file the opinion unless a company provides the required opinion within sixty days of the date the commissioner demands that the company provide such an opinion or such other period of time determined by the commissioner after consultation with the company. The paragraph does not limit or restrict the penalties or other consequence that otherwise apply for failure to timely file the required opinion.

Ins 50.79 Description of the actuarial memorandum including an asset adequacy analysis and regulatory asset adequacy issues summary. (1) GENERAL. (a) In accordance with subch. IV and ch. 623, Stats., the appointed actuary shall prepare a memorandum to the company describing the analysis done in support of his or her opinion regarding the reserves under a s. Ins 50.78 opinion. The memorandum shall be made available for examination by the commissioner upon his or her request but shall be returned to the company after such examination and shall not be subject to automatic filing with the commissioner.

(b) In preparing the memorandum, the appointed actuary may rely on, and include as a part of his or her own memorandum, memoranda prepared and signed by other actuaries who are qualified within the meaning of s. Ins 50.75 (2), with respect to the areas covered in such memoranda, and so state in their memoranda.

(c) If the commissioner requests a memorandum and no such memorandum exists or if the commissioner finds that the analysis described in the memorandum fails to meet the standards of the actuarial standards board or the standards and requirements of this subchapter, the commissioner may designate a qualified actuary to review the opinion and prepare such supporting memorandum as is required for review. The reasonable and necessary expense of the independent review shall be paid by the company but shall be directed and controlled by the commissioner.

(d) The reviewing actuary shall have the same status as an examiner for purposes of obtaining data from the company and the work papers and documentation of the reviewing actuary shall be retained by the commissioner; provided, however, that any information provided by the company to the reviewing actuary and included in the work papers shall be considered as material provided by the company to the commissioner and shall be kept confidential to the same extent as is prescribed by law with respect to other material provided by the company to the commissioner pursuant to the statute governing this subchapter and as permitted by s. 601.465, Stats. The reviewing actuary shall not be an employee of a consulting firm involved with the preparation of any prior memorandum or opinion for the insurer pursuant to this subchapter for any one of the current year or the preceding three years.

(e) In accordance with subch. IV and ch. 623, Stats., the appointed actuary shall prepare a regulatory asset adequacy issues summary, the contents of which are specified in sub. (3). The regulatory asset adequacy issues summary shall be submitted no later than March 15 of the year following the year for which a statement of actuarial opinion based on asset adequacy is required. The regulatory asset adequacy issues summary is to be kept confidential to the same extent and under the same conditions as the actuarial memorandum.

(f) An insurer licensed but not domiciled in this state shall provide the office of the commissioner of insurance a regulatory asset adequacy issues summary described under par. (e) upon request.

(2) DETAILS OF THE MEMORANDUM SECTION DOCUMENTING ASSET ADEQUACY ANALYSIS. When an actuarial opinion under s. Ins 50.78 is provided, the memorandum shall demonstrate that the analysis has been done in accordance with the standards for asset adequacy referred to in s. Ins 50.75 (4) and any additional standards under this subchapter. The documentation of the assumptions shall be such that an actuary reviewing the actuarial memorandum could form a conclusion as to the reasonableness of the assumptions. It shall specify all of the following:

(a) For reserves:

1. Product descriptions including market description, underwriting and other aspects of a risk profile and the specific risks the appointed actuary deems significant;

2. Source of liability in force;

3. Reserve method and basis;

4. Investment reserves;

5. Reinsurance arrangements;

6. Identification of any explicit or implied guarantees made by the general account in support of benefits provided through a separate account or under a separate account policy or contract and the methods used by the appointed actuary to provide for the guarantees in the asset adequacy analysis; and

7. Documentation of assumptions to test reserves for the following:

a. Lapse rates, both base and excess;

b. Interest crediting rate strategy;

c. Mortality;

d. Policyholder dividend strategy;

e. Competitor or market interest rate;

f. Annuitization rates;

g. Commissions and expenses; and

h. Morbidity.

(b) For assets:

1. Portfolio descriptions, including a risk profile disclosing the quality, distribution and types of assets;

2. Investment and disinvestment assumptions;

3. Source of asset data;

4. Asset valuation bases; and

5. Documentation of assumptions made for:

a. Default costs;

b. Bond call function;

c. Mortgage prepayment function;

d. Determining market value for assets sold due to disinvestment strategy; and

e. Determining yield on assets acquired through the investment strategy.

(c) Analysis basis:

1. Methodology;

2. Rationale for inclusion/exclusion of different blocks of business and how pertinent risks were analyzed;

3. Rationale for degree of rigor in analyzing different blocks of business, including the rationale for the level of materiality that was used in determining how rigorously to analyze different blocks of business;

4. Criteria for determining asset adequacy, including the precise basis for determining if assets are adequate to cover reserves under moderately adverse conditions or other conditions as specified in relevant actuarial standards of practice; and

5. Whether the effect of federal income taxes was considered and the method of treating reinsurance in the asset adequacy analysis.

(d) Summary of material changes in methods, procedures, or assumptions from prior year's asset adequacy analysis.

(e) Summary of results.

(f) Conclusions.

(3) DETAILS OF THE REGULATORY ASSET ADEQUACY ISSUES SUMMARY. (a) The regulatory asset adequacy issues summary shall include all of the following:

1. Descriptions of the scenarios tested, including whether those scenarios are stochastic or deterministic, and the sensitivity testing done relative to those scenarios. If negative ending surplus results under certain tests in the aggregate, the actuary shall describe those tests and the amount of additional reserve as of the valuation date which, if held, would eliminate the negative aggregate surplus values. Ending surplus values shall be determined by either extending the projection period until the in force and associated assets and liabilities at the end of the projection period are immaterial or by adjusting the surplus amount at the end of the projection period by an amount that appropriately estimates the value that can reasonably be expected to arise from the assets and liabilities remaining in force.

2. The extent to which the appointed actuary uses assumptions in the asset adequacy analysis that are materially different than the assumptions used in the previous asset adequacy analysis.

3. The amount of reserves and the identity of the product lines that had been subjected to asset adequacy analysis in the prior opinion but were not subject to analysis for the current opinion.

4. Comments on any interim results that may be of significant concern to the appointed actuary, including, the impact of any insufficiency of assets to support the payment of benefits and expenses and the establishment of statutory reserves during one or more interim periods.

5. The methods used by the actuary to recognize the impact of reinsurance on the company's cash flows, including both assets and liabilities, under each of the scenarios tested.

6. Whether the actuary has been satisfied that all options whether explicit or embedded in any asset or liability, including, but not limited to, those affecting cash flows embedded in fixed income securities and equity-like features in any investments, have been appropriately considered in the asset adequacy analysis.

(b) The regulatory asset adequacy issues summary shall contain the name of the company for which the regulatory asset adequacy issues summary is being supplied and shall be signed and dated by the appointed actuary rendering the actuarial opinion.

(4) CONFORMITY TO STANDARDS OF PRACTICE. The memorandum shall include the following statement: "Actuarial methods, considerations and analyses used in the preparation of this memorandum conform to the appropriate standards of practice as promulgated by the actuarial standards board, which standards form the basis for this memorandum."

(5) USE OF ASSETS SUPPORTING THE INTEREST MAINTENANCE RESERVE AND THE ASSET VALUATION RESERVE. An appropriate allocation of assets in the amount of the interest maintenance reserve, whether positive or negative, shall be used in any asset adequacy analysis. Analysis of risks regarding asset default may include an appropriate allocation of assets supporting the AVR; these AVR assets may not be applied for any other risks with respect to reserve adequacy. Analysis of these and other risks may include assets supporting other mandatory or voluntary reserves available to the extent not used for risk analysis and reserve support. The amount of the assets used for the AVR shall be disclosed in the table of reserves and liabilities of the opinion and in the memorandum.

dum. The method used for selecting particular assets or allocated portions of assets shall be disclosed in the memorandum.

(6) DOCUMENTATION. The appointed actuary shall retain on file, for at least 7 years, sufficient documentation so that it will be possible to determine the procedures followed, the analyses performed, the bases for assumptions and the results obtained.
