CLEARINGHOUSE RULE 95-013

Comments

[NOTE: All citations to “Manual” in the comments below are to the Administrative Rules Procedures Manual, prepared by the Revisor of Statutes Bureau and the Legislative Council Staff, dated October 1994.]

2. Form, Style and Placement in Administrative Code

In s. ATCP 10.30 (2), “(1),” “(a),” “(b)” and “(2)” should be renumbered “(a),” “1.,” “2.” and “(b),” respectively. Then, in the new par. (b), the notation “sub. (1)” should be replaced by the notation “par. (a).”

5. Clarity, Grammar, Punctuation and Use of Plain Language

With the change made by the repeal and recreation of s. ATCP 10.30 (2) in the testing protocol necessary to maintain certification as a qualified pseudorabies negative herd, s. ATCP 10.30 (6) also appears to require modification. Subsection (6) requires that an individual animal must have been included in the herd testing under sub. (2) to be qualified as a member of a qualified pseudorabies negative herd. However, the proposed change in the testing protocol no longer requires or guarantees that every member of every herd will be tested over the course of a year. This change in the testing protocol appears to result in the eventual disqualification of a number of the individual members of qualified herds. Is that an intended result?
