CLEARINGHOUSE RULE 95-036

Comments

[NOTE: All citations to “Manual” in the comments below are to the Administrative Rules Procedures Manual, prepared by the Revisor of Statutes Bureau and the Legislative Council Staff, dated October 1994.]

2. Form, Style and Placement in Administrative Code

a. The introductory clause to the rule has not been properly drafted. First, the state agency designation “ILHR” should appear throughout the introductory clause following each proposed treatment. Second, the introductory clause should conclude with a “relating clause,” e.g., “relating to definitions used in unemployment compensation rules.” The introductory clause should be redrafted to include these items. [See s. 1.02 (1), Manual.]

b. When renumbering rule sections or subsections, the agency designation “ILHR” should precede the recitation of the current and proposed rules in the treatment clause. When specific rule sections and subunits are amended, the entire rule number, not just the lowest subunit number, should appear immediately preceding the text of the provision being amended. [See s. 1.04, Manual.] For example, in the text of SECTION 6, “ILHR 100.02” should precede “(46)”.

c. In s. ILHR 100.02 (66), “and” should follow “~~including~~”. New underscored material should always immediately follow any adjacent stricken material. [See s. 1.06 (1), Manual.] A similar problem should be corrected in SECTIONS 18, 36, 59, 73 and 104.

d. SECTIONS 14 to 16 could be combined into a single SECTION because two or more subsections of the same section are affected by the same treatment. [See s. 1.04 (2) (a) 4., Manual.]

e. In SECTIONS 19, 21, 22, 23, 27, 32, 42, 47, 56, 65 to 71, 74, 83, 88, 99, 100, 102 and 106, “found” or “found” should be deleted.
