Assumptions Used in Arriving at Fiscal Estimate

The objective of the rule is to repeal and recreate s. DFI—CCS 5.04. Under current law, in creating search results for records of UCC documents filed with the department, certain standardized search logic is applied to the name presented to the filing office by the person requesting the search. The purpose of this rule is to set forth, in recreated s. DFI—CCS 5.04, revised standardized search logic. Under the proposed rule, the standardized search logic set forth more accurately reflects the methodology used. Because searches of UCC records are already provided and performed by the department, the rule's requirements place minimal additional duties or burdens on state or local government, and hence has no effect on costs to either.
