Assumptions Used in Arriving at Fiscal Estimate:

2011 Wisconsin Act 32 made several modifications to Wisconsin's three-tier system for the regulation of fermented malt beverages. The act converted the municipal beer wholesaler's license to a statewide permit issued by the Department of Revenue (DOR). It also modified the requirements for obtaining a beer wholesalers permit and restructured the brewers permit. Act 32 further required DOR to promulgate rules to administer and enforce the new wholesaler provisions, including minimum requirements for and periodic inspections of warehouse facilities. The specific directive included in Act 32 to promulgate rules supplemented DOR's existing rule-making authority pertaining to alcohol regulation under s.125.03 (1).

The proposed rule enacts certain administrative provisions consistent with and required by the Act 32 changes. The proposed rule establishes the requirements for issuance and renewal of fermented malt beverage wholesalers' permits, describes the minimum requirements for fermented malt beverage wholesaler warehouse facilities, and explains the process for applying for wholesalers' permits. The minimum square feet of floor space for a fermented malt beverage wholesaler warehouse facility is set at 1,000 square feet (but a waiver may be granted provided certain statutory requirements are met).

Since the proposed rule merely implements certain provisions and requirements of 2011 Wisconsin Act 32, the proposed rule itself has no fiscal effect.
