**SUBJECT: Egg Grading, Handling and Labeling; Final Rule (Clearinghouse Rule #14-037)**

The Department of Agriculture, Trade and Consumer Protection (DATCP) hereby submits the following rule for publication:

**CLEARINGHOUSE RULE #:** 14-037

**SUBJECT:** Egg Grading, Handling and Labeling

**ADM. CODE REFERENCE:** ATCP 88

**DATCP DOCKET #:** 13-R-05

We are enclosing a copy of the final rule, as adopted by DATCP. We are also providing the following information for publication with the rule, as required by s. 227.114(6), Stats.

**Business Impact Analysis (Summary)**

This rule is expected to have a positive impact on small-scale egg producers, as it removes the requirement to obtain a food processing plant license to gather and pack eggs from small flocks that are later sold at farmers' markets and on egg sales routes, and removes the requirement to hold a retail food establishment license for egg sales to consumers at the egg producer's farm or through a community-supported agriculture business owned by an egg producer. Egg producers selling nest-run eggs to an egg handler will be required to register with DATCP, which will require a very small expenditure of time and, for some producers, postage, but these producers will not be required to hold a food processing plant license. The rule will not increase licensing fees. Some licensed egg handling operations may need to upgrade facilities, *e.g.* sinks, walls, temperature monitoring devices, in order to meet requirements in the rule. The rule will have no economic impact on local governmental units or public utility rate-payers.
