Analysis Prepared by the Department of Natural Resources

Statute Interpreted: ss. 30.79, 23.33 (9), 350.12 (4), Stats.

Statutory Authority: ss. 30.79, 23.33 (9), 350.12 (4), Stats.

Explanation of Agency Authority: The chapter relating to water safety patrol units in s. 30.79, Stats., establishes that the department shall promulgate rules that restrict the costs eligible for state aid. Snowmobile enforcement aid language statutory authority is contained in s. 350.12 (4), Stats. All terrain / utility terrain vehicle enforcement aid language is contained in s. 23.33 (9), Stats.

Related Statutes or Rules: N/A

Plain Language Analysis: The proposed rule makes several modifications to chapter NR 50.

Section 1 - Clarifies the definition of Enforcement Officer in order for the patrol agency to qualify for state aid.

Section 2, 3, 4, and 5– Provides consistency for the patrol agencies and reduces the number of copies required to be submitted to the department. Creates requirements for the all-terrain/utility terrain law enforcement aid program in NR 50 to provide consistency for the patrol agencies.

Section 6 - Add Municipal Boat Patrol U.S. Coast Guard Annual Report (Form 8700-330) to the list of forms required as part of the annual reimbursement claim submittal. Information collected on this form is required in the U.S. coast guard federal grant application process.

Section 7 – Reduces the maximum allowable administrative percentage to 30% of the total hours claimed. Provides consistency across the three patrol unit types and limits the administrative hours claimed by a patrol unit to ensure patrol units are reimbursed for time spent patrolling vs. administrative tasks, thereby reducing the cost per citation.

Section 8– Creates the ability for patrols to include hours for safety education teaching as a reimbursable cost, consistent with water safety patrol requirements. Allowing safety education teaching hours as exempt hours will allow the patrol units to include all relevant hours on their claim, while keeping the patrol hours as actual hours spent patrolling.

Section 9 - Removes all terrain law enforcement aids program requirements from NR 64 in order to create language in NR 50 to provide consistency for the patrol agencies.

Summary of, and Comparison with, Existing or Proposed Federal Statutes and Regulations: Not applicable.

Comparison with Similar Rules in Adjacent States: Not applicable

Summary of Factual Data and Analytical Methodologies Used and How Any Related Findings Support the Regulatory Approach Chosen: Proposed changes will have an overall positive economic impact on the county sheriff's departments and local municipalities identified in the list at the end of this document.

Effect on Small Business (initial regulatory flexibility analysis): None. The rules are applicable to county sheriff's departments and local municipality enforcement units and impose no compliance or reporting requirements for small business. The Small Business Regulatory Coordinator may be contacted at SmallBusiness@dnr.state.wi.us, or by calling (608) 266-1959.

Environmental Analysis

The Department has made a preliminary determination that adoption of the proposed rules would not involve significant adverse environmental effects and would not need an environmental analysis under ch. NR 150, Wis. Adm. Code. However, based on comments received, an environmental analysis may be prepared before proceeding. This analysis would summarize the Department's consideration of the impacts of the proposal and any reasonable alternatives.

Fiscal Estimate Summary

A Department analysis of the 174 patrol claims received for the 2013 boating season and the 2013-2014 ATV and Snowmobile seasons indicates that 78% of the patrols would receive an increase in their reimbursement payment, 10% would see a decrease in their reimbursement payment, and 12% of the patrols would need to increase their patrol numbers in order to meet the minimum standards proposed in this rule.
