SUMMARY OF PROPOSED RULE

Statute interpreted

2005 Wisconsin Act 25, s. 9121(12s).

Statutory authority:

Sections 46.973(2)(c), 51.42(7)(b), 51.45(8) and (9) and 227.11, Stats., and 2005 Wisconsin Act 25, s. 9121.

Explanation of agency authority:

Section 46.973(2)(c), Stats., authorizes the Department to develop standards and provide consultation for local drug dependence and drug abuse programs, and s. 51.42(7)(b), Stats., authorizes the Department to promulgate rules governing a variety of services, including alcoholism and drug abuse services. Section 51.45(8), Stats., authorizes the Department to establish minimum standards for approved treatment facilities that must be met in order for a treatment facility to be approved. Section 51.45(9), Stats., authorizes the Department to promulgate rules for acceptance of persons into the treatment program for the purpose of early and effective treatment of alcoholics and intoxicated persons. All of the standards are referenced in ch. DHS 75.

Section 227.11 establishes requirements and parameters for agencies to promulgate rules, policies, and documents supporting rules for programs that are administered by it.

Related statute or rule:

Chapters DRL 160 to 168.

Plain language analysis:

The Department proposes to amend ch. DHS 75, relating to substance abuse counselors, clinical supervisors, and prevention specialists to reflect the transfer of credentialing authority for these professions from the Department to the Department of Regulation and Licensing (DRL) as required

under 2005 Wisconsin Act 25, s. 9121(12s) and conform the definitions in ch. DHS 75 with those in chs. RL 160 to 168.

Chapter DHS 75 has not been updated to reflect these changes since the changes were created in 2005. The passage of Act 25 divided oversight for substance abuse programs and providers resulting in the Department maintaining responsibility for certification of substance abuse services and assigning DRL responsibility for certification of individuals providing substance abuse treatment.

The proposed changes to ch. DHS 75 include the following:

- 1) Updating definitions in s. DHS 75.02 to reflect changes to those terms in chs. RL 160 to 168, including clinical supervisor, counseling, prevention, prevention specialist, prevention specialist-in training, and substance abuse counselor, substance abuse counselor-in training, and clinical substance abuse counselor.
- 2) Updating the names of bureaus and divisions.
- 3) Incorporating any additional changes related to the definitions referenced above.

These policy changes cannot be implemented in an alternative manner or policy due to the scope of ch. DHS 75, which establishes policies for certification of community substance abuse services. Definitions of substance abuse professionals are currently included in ch. DHS 75 and need to be updated due to their direct relationship with substance abuse services.

The expected outcome of these revisions is to have ch. DHS 75 to be congruent with chs. RL 160 to 168, and reflect current statutory requirements. There will not be an effect on businesses and public agencies since these changes are already implemented within DRL.

Summary of, and comparison with, existing or proposed federal regulations:

There appears to be no existing or proposed federal regulations that address the activities to be regulated by the proposed rule.

Comparison with rules in adjacent states:

Michigan:

In Michigan, substance abuse counselors must meet Michigan Certification Board for Addiction Professionals certification requirements which are taken from the International Certification and Reciprocity Consortium (ICRC). Substance use disorder programs must be licensed according to Act 360, s. 6231(1), Stats., and ss. 325.14101-325.14928, Adm. Code.

Minnesota:

Alcohol and Drug Counselors in the State of Minnesota are certified according to s. 148C., Stats., and ss. 4747.0010 – 4747.1500, Adm. Rule, established by the Minnesota Board of Behavioral Health and Therapy. Substance abuse treatment programs must be licensed according to treatment licensing rules ss. 9530.6405 – 9530.6505 (Rule 31).
