

WISCONSIN STATE ELECTRICAL CODE

Volume 1

History: The Electrical Code as it existed on November 30, 1961 was repealed and a new Electrical Code was created effective December 1, 1961.

TABLE OF CONTENTS

Volume 1

Chapter

- E 2 Scope, authority and statutory references
- E 20 General requirements
- E 101 Definition of special terms
- E 103 Protective grounding
- E 110 Scope of orders
- E 111 General requirements for rooms and spaces
- E 112 Protective arrangements of equipment
- E 113 Rotating equipment
- E 114 Storage batteries
- E 115 Transformers, induction regulators, rheostats, ground detectors, and similar equipment
- E 116 Conductors
- E 117 Fuses, circuit-breakers, switches and controllers
- E 118 Switchboards
- E 119 Lightning arresters
- E 120 Supply and communication lines
- E 121 General requirements applying to overhead and underground lines
- E 122 Relations between various classes of lines
- E 123 Clearances
- E 124 Grades of construction
- E 125 Loading for grades B, C, and D
- E 126 Strength requirements
- E 127 Line insulators
- E 128 Miscellaneous requirements for overhead lines
- E 129 Underground lines
- E 140 Electric and communication equipment and lines—scope and application
- E 141 Supply systems; rules for employers
- E 142 Supply systems; general rules for all employees
- E 143 Supply systems; rules for employees doing specialized work
- E 144 Communication systems; rules for employers
- E 145 Communication systems; rules for employees
