

Chapter Phar 2

HOSPITALS, ASYLUMS, AND NURSING INSTITUTIONS (Including homes for the aged)

Phar 2.01	Storage of medicines	Phar 2.06	Access to bulk supplies of drugs
Phar 2.02	Drugs securely locked	Phar 2.07	Surrender of narcotics
Phar 2.03	Destruction of drugs	Phar 2.08	Records kept
Phar 2.04	Kept in original containers	Phar 2.09	Cooperation of administrators
Phar 2.05	Prescriptions required	Phar 2.10	Pharmaceutical services

Phar 2.01 Storage of medicines. All medicines, poisons and stimulants kept in a nursing service division shall be plainly labeled and stored in a specially designated medicine cabinet, closet or store room, and made accessible only to authorized personnel. The cabinet for drugs shall be well illuminated and the key for such cabinet shall be entrusted to specially designated persons whose names have been filed with the state board of pharmacy within 72 hours of such appointment or change.

History: Cr. Register, December, 1956, No. 12, eff. 1-1-57.

Phar 2.02 Drugs securely locked. Narcotics and other dangerous drugs must be securely locked and may be accessible only to duly authorized persons.

History: Cr. Register, December, 1956, No. 12, eff. 1-1-57.

Phar 2.03 Destruction of drugs. All partly used dangerous drug medication except narcotics, shall be destroyed when orders for their use have been discontinued or when the patient has been dismissed or is deceased.

History: Cr. Register, December, 1956, No. 12, eff. 1-1-57.

Phar 2.04 Kept in original containers. Medication intended for a hospital, asylum or nursing home patient must be on prescription and must be kept in original containers as received from the physician or pharmacist with original label bearing all required information.

History: Cr. Register, December, 1956, No. 12, eff. 1-1-57.

Phar 2.05 Prescriptions required. Prescriptions or orders properly recorded are required for narcotics, barbiturates, and "prescription legend" drugs which must be kept in the locked cabinet and no person but a duly authorized member of the staff may handle these substances.

History: Cr. Register, December, 1956, No. 12, eff. 1-1-57.

Phar 2.06 Access to bulk supplies of drugs. Unauthorized persons shall not have access to bulk supplies of drugs in stock. This shall not apply to those items which have been actually ordered or dispensed by a pharmacist or physician.

History: Cr. Register, December, 1956, No. 12, eff. 1-1-57.

Phar 2.07 Surrender of narcotics. Unused portions of narcotic drugs must be accounted for. Federal Form #142 is used for that purpose.

History: Cr. Register, December, 1956, No. 12, eff. 1-1-57.

Phar 2.08 Records kept. For inspection by this board an accurate record must be kept of all drugs administered, received and dispensed including the quantity of the drug and the name of the prescriber.

History: Cr. Register, December, 1956, No. 12, eff. 1-1-57.

Phar 2.09 Cooperation of administrators. Hospital authorities and others are required to cooperate fully with the pharmacist in all matters of pharmacy law and state board regulations.

History: Cr. Register, December, 1956, No. 12, eff. 1-1-57.

Phar 2.10 Pharmaceutical services. Hospitals, convalescent homes, asylums and similar institutions without limitation by reason of enumeration which do not have available the services of a staff pharmacist are required to secure their pharmaceutical services through a pharmacy or drug store holding a current permit from the state.

History: Cr. Register, December, 1956, No. 12, eff. 1-1-57.
