CERTIFICATE

STATE OF WISCONSIN)
PHARMACY EXAMINING BOARD) ss
DEPT. OF REG. AND LIC.)

TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETINGS:

I, Karl W. Marquardt, Executive Secretary of the Pharmacy Examining Board, and custodian of the official records of said board, do hereby certify that the annexed rules and regulations, relating to controlled substances, were duly approved and adopted by this board on 23 August 1972.

I further certify that said copy has been compared by me with the original on file in this board and that the same is a true copy thereof, and of the whole of such original.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the official seal of the board at 110 N. Henry Street in the city of Madison, this 31st day of August A.D. 1972.

Karl W. Marquardt
Executive Secretary

ORDER OF THE WISCONSIN PHARMACY EXAMINING BOARD
ADOPTING RULES PHAR. 6.01 to 6.08

Pursuant to authority vested in the Pharmacy Examining Board by section 161.31 Wis. Stats. as set forth in section 16, Chapter 219 Laws of 1971, the Pharmacy Examining Board hereby adopts rules as follows:

Chapter Phar 6, (Sections Phar. 6.01 to 6.08)
of the Wisconsin Administrative Code is
adopted to read:

Chapter Phar 6

Controlled Substances

- Phar 6.01 Scope
- Phar 6.02 Records for Dispensers of Controlled Substances
- Phar 6.03 Filing of Prescriptions
- Phar 6.04 Purpose of Issue of Prescriptions
- Phar 6.05 Dispensing Controlled Substances
- Phar 6.06 Refilling Controlled Substances Prescriptions
- Phar 6.07 Partial Filling of Controlled Substances Prescriptions
- Phar 6.08 Labeling Controlled Substances Prescriptions

Phar 6.01 Scope. Procedures governing the manufacture, distribution and dispensing of controlled substances pursuant to Wis. Stat. Chap. 161 are set forth generally by that chapter and specifically by sections of this part of the administrative code.

Phar 6.02 Records for Dispensers of Controlled Substances.

(1) Any pharmacy, practitioner or other BNDD registrant authorized to dispense controlled substances shall maintain complete and accurate records of each such substance received, dispensed or disposed of in any other manner.

(2) Records required for dispensers by the federal Controlled Substances Act and Wis. Stat. Chap. 161 shall be maintained by the dispenser at the location where the drug is received and dispensed, and be available for inspection by authorized persons for at least two years from the date of such record, except prescription files which shall be kept for a period of five years. Financial and shipping records such as invoices and packing slips, but not executed order forms, may be kept at a central location.

(3) Required records shall be maintained as follows:

(a) Records of controlled substances listed in schedule II other than prescription orders shall be maintained separately from all other records of the dispenser.

(b) Records of controlled substances listed in schedules III, IV and V shall be maintained either separately or in such form that the information required is readily retrievable from ordinary records of the dispenser.

(c) Each dispenser of schedule II substances shall maintain the official BNDD order form (BND Form 222c) used in the procurement of such drugs at the location where the drug is received.

(d) Any person authorized to dispense controlled substances shall maintain complete and accurate records at the time of the dispensing transaction with the following information:

1. the name of the substance
2. dosage form, strength and quantity of the substance
3. number of units and date of receipt as well as name, address and registration number of the person from whom received

4. name and address of the person to whom dispensed, date of dispensing, quantity dispensed, and name or initials of individual who dispensed the substance.

(e) Records for dispensed schedule V substances shall be maintained as follows:

1. If a schedule V drug is dispensed pursuant to the prescription of a practitioner, the prescription shall be labeled and filed in accordance with the requirements for schedule III and IV drugs.
2. If a schedule V drug is dispensed other than pursuant to a prescription order, the dispenser shall make the record required by Wis. Stat. 161.23 at the time of the transaction in a bound controlled substance-V register.

(f) Any pharmacy, practitioner or other BNDD registrant authorized to dispense controlled substances shall notify the Regional Office, BNDD, 1800 Dirksen Federal Building, 219 S. Dearborn, Chicago, Illinois 60604, and the Pharmacy Examining Board of the theft or significant loss of any controlled substances upon discovery of such theft or loss.

Phar 6.03 Filing of Prescriptions. (1) All prescriptions for controlled substances must be maintained on file, in chronological order, for a period of at least five (5) years. Said prescriptions shall be readily accessible to enforcement personnel authorized by Wis. Stat. 161.51.

(2) Prescriptions for schedule II drugs shall be filed in chronological order and may be filed separately from all other prescriptions or may be filed with prescriptions for schedule III, IV and V drugs provided all prescriptions in the file for schedule III, IV and V drugs are stamped in red ink with the letter "C" one inch in height, in the lower right hand corner of the prescription.

(3) Prescriptions for schedule III, IV and V substances may be filed with the prescriptions for non-controlled drugs provided that prescriptions for schedule III, IV and V drugs are stamped in red ink with the letter "C" one inch in height in the lower right hand corner of the prescription; or prescriptions for schedule III, IV and V substances may be filed separately. Under no circumstances shall prescriptions for schedule II drugs be filed together with prescriptions for non-controlled drugs.

(1) Phar 6.04 Purpose of Issue of Prescriptions. (1) A prescription for a controlled substance to be effective must be issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice. Responsibility for the proper prescribing and dispensing of controlled substances is upon the prescribing practitioner, but a corresponding responsibility rests with the pharmacist who fills the prescription. An order purporting to be a prescription issued not in the usual course of professional treatment or in legitimate and authorized research, is not a prescription within the meaning and intent of Wis. Stat. 450.07(f) and 161.38, and the person filling such a purported prescription knowingly, as well as the person issuing it, shall be subject to the penalties provided for violation of the provisions of law relating to controlled substances.

(2) A prescription issued by a practitioner to obtain controlled substances for the purpose of general dispensing to patients shall not be considered a valid prescription.

(3) A prescription may not be issued for dispensing of drugs listed in any schedule to a drug dependent person for the purpose of continuing his dependence upon such drugs, in the course of conducting an authorized clinical investigation in the development of an addict rehabilitation program.

Phar 6.05 Dispensing Controlled Substances. (1) All prescriptions for controlled substances shall be dated as of, and signed on, the day when issued and shall bear the full name and address of the patient, the name, address and registration number of the practitioner, the name and quantity of the drug prescribed, and the directions for use. Where an oral order is not permitted, prescriptions shall be written with ink or indelible pencil or typewriter and shall be manually signed by the practitioner. A prescription for a controlled substance may be issued only by an individual practitioner who is authorized to prescribe controlled substances by the jurisdiction in which he is licensed to practice, and registered or exempted from registration under the Federal Controlled Substances Act.

(2) A pharmacist may dispense directly a controlled substance listed in schedule II, III or IV only pursuant to a prescription issued by an individual practitioner. The prescription shall be initialed and dated by the dispensing pharmacist as of the date dispensed.

(3) An individual practitioner may dispense directly a controlled substance listed in schedule II, III or IV provided that the prescription container is labeled and records are maintained in accordance with the requirements of this code. An individual practitioner shall not delegate to an employe or agent other than a pharmacist any of the functions involved in directly dispensing a controlled substance to a patient in the course of his professional practice.

(4) A prescription for a controlled substance listed in schedule II may be dispensed only pursuant to a written prescription signed by the prescribing individual practitioner, except in emergency situations. No prescription for a controlled substance listed in schedule II shall be filled unless presented for filling within seven days following the date of issue.

(5) No pharmacy, individual practitioner, or other BNDD registered dispenser shall dispense at any one time, and no individual practitioner shall prescribe for dispensing at any one time, a controlled substance in any quantity exceeding a thirty-four day supply or 120 dosage units whichever is less.

Phar 6.06 Refilling Controlled Substances Prescriptions. (1) No prescription for a schedule II substance shall be refilled.

(2) No prescription for a substance listed in schedule III or IV shall be filled or refilled more than six months after the date on which such prescription was issued and no such prescription authorized to be refilled may be refilled more than five times. Each refilling of a prescription shall be entered on the prescription, initialed and dated by the pharmacist as of the date of dispensing and shall state the amount dispensed. If the pharmacist merely initials and dates the prescription, he shall be deemed to have dispensed a refill for the full face amount of the prescription. Additional quantities of drugs listed in schedules III and IV may only be authorized by a prescribing practitioner through issuance of a new and separate prescription. Prescription refill information may be kept in a uniformly maintained, readily retrievable, medication profile record system provided the entry is made in the medication profile record at the time of dispensing each refill.

(3) A prescription for a drug listed in schedule V may be refilled only as expressly authorized by the practitioner. If no such authorization is given, the prescription may not be refilled. Pro re nata or similar designations are not valid expressed refill authorizations.

Phar 6.07 Partial Filling of Controlled Substances Prescriptions.

The partial filling of a prescription for a controlled substance listed in schedule II, III, IV or V is permissible.

Phar 6.08 Labeling Controlled Substances Prescriptions.

(1) The pharmacist filling a written or oral prescription for a controlled substance shall affix to the immediate container a label showing the date of dispensing; the pharmacy name and address; serial number of the prescription; name of the patient; name of the prescrib-

ing practitioner; directions for use and cautionary statements, if any, contained in such prescription or required by law.

(2) Individual practitioners who personally dispense any controlled substance to patients in the course of their professional practice other than by prescribing or administering shall affix to the immediate container a label showing the date of dispensing; the practitioner's name and address; the name of the patient; directions for use and cautionary statements as required by law.
