ORDER OF THE EXAMINING BOARD OF ARCHITECTS,  
PROFESSIONAL ENGINEERS, DESIGNERS, AND  
LAND SURVEYORS AMENDING RULES

Pursuant to authority vested in the Examining Board of Architects, Professional Engineers, Designers and Land Surveyors by Sections 15.08(5) and 443.01(4)(d), Wis. Stats., the Examining Board hereby repeals, amends, and adopts rules to read as follows:

Section A-E 1.15(4)(a) of the Wisconsin Administrative Code is amended to read:

A-E 1.15(4) EXAMINATIONS FOR ARCHITECTS. (a) Examination required. The objective of the board is to conduct its examinations for registration as an architect in the manner prescribed by the national council of architectural registration boards. This procedure is of considerable value to one registered on the basis of having passed such an examination if, at some future date, he might find it necessary to obtain reciprocal registration as an architect in another state.

Applicants for registration as an architect must take two examinations, an "equivalency examination" and a "professional examination" except that applicants who have graduated from a school with curriculum approved by the architects' section as provided in section A-E 1.01 are not required to take the equivalency examination.

Section A-E 1.15(4)(d) of the Wisconsin Administrative Code is repealed and recreated to read:

(d) Scope of Examination

1. The 16 hour equivalency examination consists of three parts:  
part one (construction, theory & practice); part two archi-

tectural theory); part three (design). An applicant must, unless exempt from the equivalency examination under (a), pass all parts of the equivalency examination before he will be eligible to take the professional examination.

2. The professional examination consists of both oral and written parts. The final grade includes a rating based on the applicant's architectural training and practical experience.
  - a. The 16 hour written part of the professional examination consists of four integrated sections and must be taken in its entirety: Part one (environmental analysis); part two (architectural programming); part three (design and technology); part four (construction). An applicant who fails the written part of the professional examination must retake the written part of the professional examination in its entirety and must pass all sections to be eligible for registration as an architect.
  - b. The oral part of the professional examination consists of an appearance before the architects' section during which the applicant's academic preparation, employment experience, overall qualification and attitude relating to the practice of architecture is evaluated. An applicant who fails the oral part of the professional examination must retake and pass the oral part to be eligible for registration as an architect. An applicant who fails either the written or oral part of the professional examination, must retake only the part failed. Detailed information regarding

examinations will be made available upon request to the board's office.

Section A-E 1.19 of the Wisconsin Administrative Code is created to read:

A-E 1.19 Experience Requirements for Land Surveyors. In determining whether an applicant has met the experience qualifications required for registration, the land surveyors' section will consider work in all areas of land surveying, including, but not limited to, any of the following:

- (1) relocation of lost and obliterated corners;
- (2) subdivision of sections;
- (3) resurveys;
- (4) preparation and filing of certified survey maps and subdivision plats;
- (5) writing and interpretations of land descriptions.

Section A-E 1.50 of the Wisconsin Administrative Code is amended to read:

A-E 1.50 LICENSE FEES

  - (a) The registration fee for architects shall be \$50, one-half of which shall accompany the application as a non-refundable examination fee, and the other half of which shall be a certificate fee.
