

H 27

STATE OF WISCONSIN)
)
DEPARTMENT OF HEALTH AND SOCIAL SERVICES) ss

TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETINGS:

I, Manuel Carballo, Secretary of the Department of Health and Social Services and custodian of the official records of said department, do hereby certify that the creation of rules and regulations relating to the Wisconsin Drug Formulary were duly approved and adopted by this department.

I, further certify that to the best of my knowledge, my official representative has compared said copy with the original on file in this department and that the same is a true copy thereof, and of the whole of such original.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the official seal of the department in the city of Madison, this 17th day of December, 1976.

Manuel Carballo
Manuel Carballo, Secretary
Department of Health & Social Services

SEAL

ORDER OF THE DEPARTMENT OF HEALTH & SOCIAL SERVICES ADOPTING RULES

Pursuant to authority vested in the Department of Health & Social Services in Chapter 39, Laws of 1975, and in Section 140.05, Wis. Stats., & in accordance with Chapter 227, Wis. Stats., the following rules are hereby promulgated:

Chapter H 27, of the WISCONSIN ADMINISTRATIVE CODE is Created to read:

CHAPTER H 27

WISCONSIN DRUG FORMULARY

H 27.01 Statutory applicability	H 27.12 Chlorpromazine HCL
H 27.02 Definitions	H 27.13 Diphenhydramine HCL
H 27.03 Drug product selection	H 27.14 Doxepin HCL
H 27.04 Exception	H 27.15 Erythromycin Base
H 27.05 Savings	H 27.16 Erythromycin Stearate
H 27.06 Refilling	H 27.17 Imipramine HCL
H 27.07 Revision	H 27.18 Meclizine HCL
H 27.08 Posting	H 27.19 Meproamate
H 27.09 Penalties	H 27.20 Penicillin V Potassium
H 27.10 Wisconsin drug formulary, Ampicillin	H 27.21 Phenobarbital
H 27.11 Chlordiazepoxide HCL	H 27.22 Propoxyphene HCL
	H 27.23 Tetracycline HCL

H 27.01 Statutory applicability. (1) The following rules are adopted by the department of health and social services to create, implement, and administer the "Wisconsin Drug Formulary" in compliance with section 140.90 and 450.075 Wis. Stats.

(2) EFFECTIVE DATE OF STATUTE. March 20, 1976.

H 27.02 Definitions. (1) DEPARTMENT. The department of health and social services.

(2) FORMULARY. The formulary is the "Wisconsin Drug Formulary" as compiled by the department with the advice of its drug quality council.

(3) COST. A cost determined by the department as representative of the most common acquisition cost available to all pharmacists in the state for a common purchase quantity of a drug product. This cost is

subject to many variables and may not accurately reflect the actual cost incurred by each pharmacy. The cost is listed to provide guidelines for the pharmacist and the patient.

(4) DRUG PRODUCT EQUIVALENT. A drug product listed in the formulary as being chemically identical and therapeutically equivalent to a brand name or reference drug product. For the purposes of section 450.075, only those drug products listed in the formulary are considered to be equivalent.

(5) DRUG PRODUCT SUBSTITUTION. The process by which a pharmacist dispenses a drug product other than the product prescribed by a practitioner.

(6) DRUG PRODUCT SELECTION. The process by which a pharmacist selects the correct drug product to be used in filling a prescription.

H 27.03 Drug product selection (Section 450.075 Wis. Stats.). (1) DRUGS NOT LISTED IN THE "WISCONSIN DRUG FORMULARY". If the prescription is written for a drug not listed in the formulary, it shall be filled in accordance with section 450.07 Wis. Stats. and Wis. Adm. Code chapters Phar. 1, 2, and 3.

(2) DRUGS LISTED IN THE "WISCONSIN DRUG FORMULARY". (a) If the drug product is prescribed by brand name; 1. The pharmacist shall verbally inform the consumer that the drug product named in the prescription is included in the Wisconsin Drug Formulary and that a substitute drug product equivalent may be dispensed.

2. The pharmacist shall inform the consumer of the prescription filling options available by use of a form worded in the following manner:

Normal Letterhead or Identification of the Pharmacy

To the Consumer:

The drug product prescribed for you is included in the Wisconsin Drug Formulary. This Formulary is a list of drugs for which there are more than one chemically identical and equally effective products available. Wisconsin law now allows pharmacists to fill your prescription with one of these equivalent products, if it has a cost equal to or lower than the brand name product prescribed. The full savings resulting from this substitution will be passed on to you.

Consumer's Decision:

Check One

I want to use the substitution option, and I request that my prescription be filled with an approved equivalent product as listed in the Wisconsin Drug Formulary.

I do not want to use the substitution option, and I request that my prescription be filled with the specific drug product named in my prescription.

Sign and Return to Pharmacist

Pharmacist's Dispensing Recommendation:

Prescription No. _____ Product Prescribed _____
(Brand Name)

Name of Product Dispensed _____
(Brand or Generic)

Distributor of Product (If Generic) _____

Physician _____ Date _____

Pharmacist's Registration Number _____

If the pharmacist's decision disagrees with the consumer's, inform the consumer to that effect prior to filling the prescription, and indicate the reason below:

3. The consumer shall review the form, indicate their decision by selecting the appropriate statement, sign the form, return the form to the pharmacist.

4. The pharmacist may then select and dispense the requested drug product or, if the pharmacist does not recommend that the prescription be filled in the requested manner, the pharmacist shall inform the consumer of this recommendation and with the consent of the consumer, decide upon a mutually acceptable alternative.

NOTE: Although substitution is not mandatory, the drug quality council encourages that it be initiated whenever an appropriate drug product equivalent is available.

5. If the prescription is to be filled by the pharmacist, the pharmacist should; select the appropriate drug product, complete the remainder of the form, dispense the selected and recorded drug product.

6. The completed form shall be retained by the pharmacy, to be kept on file and available for review for a period of at least two years following receipt of the original prescription.

7. If a completed prescription for a drug listed in the "Wisconsin Drug Formulary" is to be delivered to the consumer's residence by an agent of the pharmacist, notification of the substitution options and the pharmacist's selection decision shall be made known to the consumer at the time of delivery.

(b) If the drug product is prescribed generically; 1. The pharmacist, using professional judgement, shall dispense a drug product equivalent listed in the formulary which was obtained at a cost not

higher than the average cost of all the listed equivalents. This average is designated by the average cost line.

2. The pharmacist shall inform the consumer that the drug product selected has a cost not higher than the average cost of all its listed equivalents.

H 27.04 Exception. If the practitioner has written on the face of the prescription the phrase, "No Substitution", the initials "N.S.", or words of similar meaning, the prescription shall be dispensed as written. Such indication may not be made by means of a preprinted or stamped statement.

H 27.05 Savings. In all situations where substitution takes place, the full savings generated by the substitution shall be passed on to the consumer.

H 27.06 Refilling. Prescriptions shall be refilled with the same drug product used to fill the original prescription. Substitution may take place only if a new prescription is issued.

H 27.07 Revision. The formulary is reviewed and revised every 6 months. Copies are distributed to all pharmacists and practitioners in the state and are available to other interested individuals upon request.

H 27.08 Posting. An unaltered copy of the most recent edition of the formulary booklet, as prepared by the department shall be conspicuously posted in such a manner that a reasonable person would notice it and be able to examine it at each counter where prescription drugs are sold.

H 27.09 Penalties. Violation of section 450.075 Wis. Stats., concerning the use, and posting of the formulary may be considered to be unprofessional conduct, and as such may constitute grounds for suspension or revocation of a pharmacist's registration.
