SEAL:

ORDER OF THE  
DEPARTMENT OF HEALTH AND SOCIAL SERVICES  
REPEALING AND ADOPTING RULES

Relating to rules concerning standards for private outpatient psychotherapy clinics.

Analysis prepared by the Department of Health and Social Services:

These rules establish standards for private outpatient clinics providing psychotherapy and other related outpatient services. The rules apply to those clinics receiving payment for services through the Wisconsin medical assistance program and mandatory benefits required by section 632.89, Stats., Insurance Code. The rules do not apply to outpatient services provided by local boards established under sections 51.42, 51.437 or 46.23, Stats. The rules establish minimum standards only to ensure that services of adequate quality are provided. The rules in no way restrict clinics from setting higher standards nor does it exempt such clinics from meeting additional or alternate standards as may be applicable to services contracted for by boards established under sections 51.42, 51.437 or 46.23, Stats.

The rules specify the procedures by which a clinic shall be reviewed to determine compliance and the method of issuing certification when all requirements are met. Requirements are established for services provided and for personnel providing those services. The rules also specify conditions under which the department may act to terminate, suspend or deny certification and the opportunity for the clinic to request a hearing regarding such action.

The service requirements in these rules are a result of mandates in the insurance statutes and may or may not be reimbursable under chapters HSS 101 to 108 Adm. Code, Medical Assistance Administrative Rule.

Pursuant to authority vested in the Department of Health and Social Services by sections 51.42(12) and 227.014(2), Stats., the Department of Health and Social Services hereby repeals section PW-MH 60.65(3) and section HSS 61.25 and adopts rules interpreting sections 49.45(10), 51.04, 51.42(5)(b) to (d), 51.42(12) and 632.89, Stats.

The department may terminate, suspend or deny certification of any clinic after prior written notice and summary of the basis for termination, suspension or denial.

(a) Any of the clinic's licenses or required local, state or federal approvals have been revoked, suspended or have expired; or

(b) The health or safety of a patient is in imminent danger because of knowing failure of the clinic to comply with requirements of this rule or any other applicable local, state or federal law or regulation.

Accordingly, the findings of the department which served as the basis for the action shall be construed as being admitted by the provider, and the administrative remedy or relief sought by the department by means of the action may be effected.

(5) VIOLATION AND FUTURE CERTIFICATION. A person with direct management responsibility for a clinic and all employees of a clinic who were knowingly involved in any of the following acts which served as a basis for termination shall be barred from employment in a certified clinic for a period not to exceed 5 years.
