(ss. 29.085 and 29.174, Stats.)

NR 10.001 Definitions. (1) "Antlerless deer" means any deer without antlers or with an antler less than 3 inches in length.

(1m) "Assisting", for the purpose of bear hunting, means helping a bear harvest permittee hunt a bear by handling dogs, tracking, trailing or locating the bear, or otherwise aiding while with the permittee or baiting.

(2) For the purposes of this chapter, "bait" means honey and any solid or nonliquid material attractive to wildlife.

(3) "Bearded turkey" means a turkey with a bristle-like appendage protruding from the upper part of the breast.

(4) "Bow" means any bow, drawn and held by and through the effort of the person releasing it, but does not include crossbow.

(5) "Buck deer" means any deer with an antler not less than 3 inches in length.

(6) "Crossbow" means any device using a bow which, once drawn, is held solely by means other than the effort of the person firing it.

(7) "Daily bag limit" means the maximum number of a game species which may be reduced to a person's possession in one day.

(9) For the purposes of ss. 29.224 (2), 29.56, 29.565 (2), 29.57 (4) and 350.06, Stats., "enclosed within a carrying case" for firearms means completely contained in a gun case expressly made for that purpose which is

fully enclosed by being zipped, snapped, buckled, tied, or otherwise fastened, with no portion of the firearm exposed.

Note: Subsection (9) does not remove the requirement of ss. 29. 224 and 350.06, Stats., to enclose bows or crossbows in carrying cases. The rule does not apply to bows or crossbows only because the natural resources board recognizes that certain designed bow cases may allow portions of the bow, for instance the handle, to be exposed and yet still render the bow inoperable.

(10) "Firearm season" means an open season for hunting with any of the following firearms loaded with a single slug or ball: rifle, muzzle-loader, shotgun or handgun for deer hunting described in s. NR 10.09 (1) (c) 1. c..

(11) "Goose zones and areas" means those established in s. NR 10.01 (1) (i) through (t).

(15) "Migratory game birds" means any bird which is migratory and on which an open season has been prescribed in this chapter and belonging to one of the following families:

(a) *Anatidae* (wild ducks, geese and brant),

(b) *Rallidae* (rails, coots and gallinules),

(c) *Scolopacidae* (woodcock and Wilson's snipe (jacksnipe)).

(16) "Molest" means any activity which results in physical damage or destruction of an object.

(17) For the purpose of hunting deer and bear, "muzzle-loader" means any smoothbore muzzle-loading firearm of not less than .45 caliber and any rifled muzzle-loading firearm of not less than .40 caliber, discharged from the shoulder.

(18) For the purpose of hunting wild animals other than deer and bear, "muzzle-loader" means any caliber of any muzzle-loading firearm discharged from the shoulder.

(19) "Non-toxic shot" means steel shot.

(20) "Open water" means any water beyond a natural growth of vegetation rooted to the bottom and extending above the water surface of such height as to offer whole or partial concealment for the hunter. Dead stumps and dead trees in water do not constitute a natural growth of vegetation.

(21) "Permanent abode" means a person's principal or ordinary home or dwelling place as distinguished from a temporary abode.

(22) "Possession limit" means the maximum number of a game species which may be reduced to a person's possession in 2 days or more.

(23) "Preservation facility" means any permanent abode, cold storage facility, locker plant, taxidermy establishment, hunting club or place of business which receives or possesses any game belonging to another per-

son for the purposes of picking, cleaning, freezing, processing, storage or shipment.

9. Deer quotas. a. Deer quotas are primarily based on the following considerations: the status of unit deer populations in relation to established population goals as determined by inventories, the past effect of varying antlerless harvest levels on unit deer populations gained from many years experience with the quota system, and the estimated impact of the previous winter's severity on deer survival and subsequent fawn production. The department shall issue party permits, antlerless permits or hunter's choice permits in sufficient numbers to assure maintenance of overwintering deer populations for each quota area indicated in subd. e.

b. Quota areas are composed of single management units or parts of units, the boundaries of which are established in s. NR 10.28.

c. In each quota area, the number of permits to be issued to harvest the desired numbers of deer shall be based on an average of the hunter suc-

cess rates from the most recent 3 previous seasons or by an average of fewer seasons where a 3-year average is not available. In establishing a quota for an area without an adequate history of permits, the average success rates of similar quota areas shall be applied or the department shall estimate an anticipated success rate.

d. Permit success rates used to compute the number of permits to be issued for each quota shall be those calculated by the department from annual deer season harvest reports except where no previous history of success rates exist.

The success rate formula is:

$$\text{Success rate} = \frac{\text{Number of antlerless deer harvested}}{\text{Number permits issued}}$$

The permit number formula is:

$$\text{Permit number} = \frac{\text{Quota deer to be harvested}}{\text{Hunter success rate}}$$

**NR 10.117 Deer season modification.** (1) **POWERS.** The secretary of the department may, upon making the findings in sub. It is unlawful for any person or persons to hunt from or to permit any other person or persons to hunt from any blind situated on any 20-acre parcel of land, or residuary parcel thereof of less than 20 acres and more than 10 acres, owned, leased, occupied, or controlled by said person, while any other person or persons, whether with or without permission, are hunting from any other blind situated on the same 20-acre parcel of land or on the same residuary parcel thereof.
