

**Chapter HFS 12****APPENDIX A  
CRIMES LIST  
MAY 1999**

This document contains a list of Wisconsin crimes current as of September 16, 1998. The statute numbers have been provided on this table for ease in identifying crimes. Unless otherwise indicated, the crimes listed have been determined by the Department of Health and Family Services to be "substantially related" to positions covered by the Caregiver Law, secs. 48.685 and 50.065, Stats.

Crimes also charged under Ch. 939, Wis. Stats., are to be treated as provided for the companion crime, unless otherwise indicated. For example, secs. 939.05, 943.10(2) (Party to the crime, Burglary while armed) would be in the "bar with rehab" category because the list provides that "Burglary while Armed" is in that category. However, secs. 939.32, 940.01 (Attempted 1<sup>st</sup> Degree Intentional Homicide) would be in the "bar with rehab" category rather than in the "permanent bar" category because there is a special condition or comment that so indicates.

If a person has been convicted of a crime in another state or jurisdiction, the entity or regulatory agency must locate on the table below the Wisconsin crime which is identical or most similar to the crime for which the person was convicted and apply the consequence identified. This instruction also applies if the person was convicted in Wisconsin, but the statute number or crime title has been changed or amended.

Notwithstanding sec. 111.335, Wis. Stats., secs. 48.685(5m) and 50.065(5m), Wis. Stats., permit a regulatory agency to deny regulatory approval or an entity to refuse to, employ, contract with, or permit to reside at the entity a person whom the regulatory agency or entity determines has been convicted of a crime that is "substantially related" to the care of a client. The agency or entity may review a conviction to make that determination when: (a) The person has been convicted in Wisconsin or another state or jurisdiction of any crime that is not listed in this appendix; or (b) The person has been convicted of a crime that is listed in this appendix but no longer requires rehabilitation review.

Under the Caregiver Law, other acts or offenses may carry regulatory or employment consequences. Persons with findings by a governmental agency of neglect or abuse of a client, or misappropriation of a client's property; persons with findings by a governmental agency of child abuse or neglect; and persons with current limitations on their professional credentials must demonstrate to the regulatory agency that they are rehabilitated.

**CRIMES LIST AS APPLIED TO EMTs**

Emergency medical technicians (EMTs) are covered as follows:

- "Permanent bar" crimes apply to licensed EMTs.
- An EMT must demonstrate rehabilitation (see s. HFS 12.12, Wisconsin Administrative Code) when there has been a finding by a governmental agency of abuse or neglect of a client or child, or misappropriation of a client's property.
- All other criminal convictions are subject to the "substantially related" analysis by the licensing agency and the employer.
