

STATEMENT OF SCOPE

Department of Safety and Professional Services

Rule No.: SPS 160 - 168

Relating to: Substance abuse counselors, clinical supervisors and prevention specialists

Rule Type: Permanent

1. Finding/nature of emergency (Emergency Rule only): N/A

2. Detailed description of the objective of the proposed rule:

The objective of the proposed rule is to update the rule to ensure the rule conforms to statutes, remove obsolete provisions, correct cross- references, allow for current technologies, update terminology and reflects current practices in the profession.

3. Description of the existing policies relevant to the rule, new policies proposed to be included in the rule, and an analysis of policy alternatives:

Chapters SPS 160-168 governing substance abuse counselors, clinical supervisors and prevention specialists have not been comprehensively reviewed or updated since the professions were transferred to the Department of Safety and Professional Services and the original rules drafted in 2007.

The proposed rules will update the following: minimum standards and qualifications for the substance abuse credentials (basing the standards on demonstrated requisite competency, knowledge, skills and attitudes of professional practice that are culturally competent and evidence based); the criteria for the continuing education programs and courses required for renewal, including any specific topic areas; the criteria for the approval of sponsors of continuing education; and the minimum standards of practice. This revision will include: updating to current terminology, technologies, and practices in the profession; removing obsolete or burdensome provisions; correcting cross-references; conforming to statutory provisions; and creating clarity while maintaining the health, safety and welfare of the public.

The alternative to the proposed changes would be to continue to have conflicts and lack of clarity within the code, and maintain procedures and practices which are out-of-date.
