1. Finding/nature of the emergency (Emergency Rule only).

School districts throughout the state are experiencing difficulties obtaining and retaining licensed personnel, particularly in rural areas located around military institutions in the state. These difficulties can impact children's educational experience. An emergency rule is needed to create another option in the teacher licensing process for military spouses who are seeking a license. A permanent rule would not be able to provide for this license in time for when school districts are required to make hiring decisions; therefore, an emergency rule is necessary until the process for promulgating a permanent rule can be completed.

2. A description of the objective of the proposed rule.

The Department proposes to amend its current rules governing educator licenses under PI 34 of the Wisconsin Administrative Code in order to streamline the process for educators who are military spouses to receive a teaching license in Wisconsin.

3. A description of the existing policies and new policies included in the proposed rule and an analysis of policy alternatives.

PI 34 of the Wisconsin Administrative Code governs educator licenses, which was rewritten and had become effective on August 1, 2018. The Department's rules governing program approval for educator licenses also exist under PI 34. Currently, the educator preparation of military spouses is often done through alternative route programs, which are not the equivalent of approved Wisconsin educator preparation programs. In addition, because military assignments are often 18 months or shorter, it is often difficult to meet the one year of full-time experience requirement in order to receive an educator license in Wisconsin based on reciprocity. For these reasons, the Department proposes a rule change that would allow it to issue a license to military spouses based solely on their license in another state and upon military orders. Without a rule change, the Department would be required to administer educator licenses

as they currently exist in PI 34 and affected license applicants will have to meet the current rule requirements in order to receive a license by using current license pathways.

4. The statutory authority for the proposed rule.

115.28 General duties. The state superintendent shall:
