

**STATE OF WISCONSIN
DEPARTMENT OF TRANSPORTATION
OFFICE OF THE SECRETARY**

The State of Wisconsin Department of Transportation Proposes an Order to Amend Permanent Rule ch. Trans 330 relating to Motor Bus Equipment and Inspection, and affecting small businesses.

**PROPOSED ORDER
AMENDING PERMANENT RULE**

INTRODUCTION

The Statement of Scope for this Permanent Rule, SS 080-15, was approved by the Governor on August 24, 2015, published in Register No. 716B on August 31, 2015, and approved by Secretary of the State of Wisconsin Department of Transportation (“Department”) Mark Gottlieb, P.E., as required by s. 227.135(2), Wis. Stats, on September 21, 2015. The analysis below was prepared by the Department.

ANALYSIS

Statutes Interpreted: 49 CFR Part 393 (Parts and Accessories Necessary for Safe Operation) and Part 396 (Inspection, Repair, and Maintenance).

Statutory Authority: Sections 110.063, 110.064, 110.075, Wis. Stats.

Explanation of Agency Authority: Section 110.063, Wis. Stats., the department shall promulgate and enforce such rules as the department deems necessary in the interests of the safety of persons being transported to cover the design, construction, equipment, inspection and operation of motor buses.

Related Statute or Rule: None not already listed.

Plain Language Analysis: This rulemaking updates Chapter Trans 330, Wis. Adm. Code to meet the Federal Motor Carrier Safety Regulations (FMCSR.) It also updates current rule language to meet the Federal Motor Carrier Safety Administration (FMCSA) 2009 Audit Titled

“Wisconsin MCSAP Review Summary Findings, Recommendations, and Noteworthy Practices Report” and dated July, 2009 (“FMCSA Audit”). The rulemaking updates equipment exceptions to a motor vehicle previously manufactured or equipped as a school bus, which has now been converted into a motor bus.

Summary of, and Comparison with, Existing or Proposed Federal Statutes and

Regulations: The State’s Motor Bus Equipment and Inspection regulations contained in ch. Trans 330 “Motor Bus Equipment and Inspection” are not compatible with the “Parts and Accessories Necessary for Safe Operation” requirements of 49 CFR Part 393 and the “Inspection, Repair, and Maintenance” in 49 CFR Part 396, as detailed below.

- Ch. Trans 330.03 specifies that the Parts of 49 CFR 393 adopted in ch. Trans 330 are those that were in effect on October 1, 1990. This date will be removed from ch. Trans 330.03.
- In ch. Trans 330.05, the driver is required to do a pre-trip but not a post-trip inspection as required by 49 CFR 396. Ch. Trans. 330.05 will be rescinded.
- In ch. Trans 330.10 (8), the provisions of 49 CFR 393.92 concerning Emergency Exits are adopted, but no longer exist in that section of the FMCSRs. The reference to 49 CFR 393.92 in ch. Trans 330.10(8) will be rescinded.
- In ch. Trans 330.10, the brake requirements in 49 CFR 393.40 – 393.52 are adopted but not the antilock brake requirements as required in 49 CFR 393.55. The reference to 49 CFR 393.55 will be added to ch. Trans 330.10(3).

These changes will make ch. Trans 330 compatible with 49 CFR 393 and 49 CFR 396.

Comparison with Rules in Adjacent States:

Illinois. Have same rules currently being proposed by FMCSA Audit.

Iowa. Have same rules currently being proposed by FMCSA Audit.

Michigan. Have same rules currently being proposed by FMCSA Audit.

Minnesota. Have same rules currently being proposed by FMCSA Audit.

Summary of the Factual Data and Analytical Methodologies: The updates to ch. Trans 330 reflect changes to federal motor carrier safety requirements in 49 CFR Part 393 related to safe operation of motor busses, in 49 CFR Part 396 related to inspection, repair and maintenance of motor busses, and the needed changes to Wisconsin's motor bus regulations required by the FMCSA Audit.

Analysis Regarding Rule's Effect on Small Businesses: This proposed rule will be less restrictive than as currently written. The rule as proposed will also give a clearer understanding to industries who chose to use a converted school bus as a motor bus to transport passengers without jeopardizing any safety standards.

Effect on small business: None
