

DRAFT #1
02/07/19

The scope statement for this rule, SS 109-18 was published in Administrative Register 755 A1 on November 5, 2018 and was adopted by the Natural Resources Board on December 12, 2018. The final rule was approved by the Governor on .

**ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD
REPEALING, AMENDING, REPEALING AND RECREATING AND CREATING RULES**

The Wisconsin Natural Resources Board proposes an order to **repeal** NR 20.20 (25)(f) 4. and (63)(c) 2.; to **amend** 20.18 (2)(a), 20.20 (1)(d) 2., (2)(a) 1., (2)(c) 1., (3)(a) and (b), (4)(c) and (d) 1., (5)(c) 2., (5)(d) 1., (7)(b), (9)(b), (9)(f) 1., (11)(d) 3., (12)(e) 3., (13)(c) 2., (13)(g) 1., (13)(h) 1., (14)(a) 2., (16)(d) 1., (17)(g) 1., (18)(c) 2., (19)(b) 1., (19)(c) 1. a., (20)(a) 1., (21)(a) 1., (21)(b), (21)(c) 1., (22)(e) 1., 3. and 4., (24)(f) 1., (25)(f) 3., (26)(a), (26)(c) 1., (26)(h) 4., (27)(c) 1., (28)(d) 1., (30)(b) 2., (33)(b) 2., (34)(b) 1., 3. and 4., (34)(e) 1., (35)(b) 1. and 3., (36)(a), (38)(a) 1., (38)(d) 3., (38)(f) 1., (39)(c) 2., (42)(b) 2., (43)(a) 1., (43)(b) 1., (43)(d) 2., (44)(b), (44)(c), (49)(a), (50)(a) 2., (50)(c) 1., (51)(a) 1. and 2., (51)(c) 1., (52)(b) 2., 3. and 4., (53)(e) 3. and 4., (54)(e) 1., (55)(a) 1. and 2., (55)(e) 2., (55)(g) 1., (56)(c) 2., (57)(c), (57)(e) 1. and 2., (60)(a) 1. and 2., (60)(d) 1., (61)(b), (62)(b) 1., (63)(a) 1., (63)(c) 3., (64)(b) 2. and 3., (64)(c) 1., 2. and 7., (64)(d), (65)(b), (65)(c) 1., (66)(b), (67)(b), (67)(c) 1., (68)(c) 1. and 2., (69)(a) 2., (69)(f) 1., (70)(a) 2. and 3., (71)(c) 1., (71)(f) 1., (73)(c) 3., (73)(e) 1., (73)(f) 1., 2., 4. and 5., (73)(g) 1., (73)(g) 3., (73)(o) 6., 21.04 (1)(a), (b) and (c), (3)(b), (4), (5)(b), (8)(b), 22.04 (2)(a), 23.05 (5)(d) 1., (5)(e), and 26.01 (16)(c) and (5)(a); to **repeal and recreate** NR 21.04 (2)(c); and to **create** 20.10 (7), 20.20 (1)(b) 3., (2)(a) 1., (9)(b) 4., (10)(c) 2., (12)(e) 3m., (13)(g) 1m., (14)(b) 3., (14)(e), (15)(e), (17)(g) 1m., (19)(i), (21)(b) 4., (24)(f) 2., (25)(f) 5m., (26)(h) 5., (28)(d) 2., (39)(d) 3., (43)(a) 2., (44)(c) 4., (48)(b) 1r., (49)(a) 3., (56)(e) 4., (56)(i), (58)(f) 2., (60)(d) 3m., (64)(c) 8. and 9., (65)(c) 2., (68)(d) 3., (69)(a) 3., (69)(b) 4., (69)(c) 4., (69)(f) 2., (70)(c) 5., (71)(c) 2., (73)(g) 2m., 20.40 (10)(g) 10., 21.04 (4g) and (4r), and 26.01 (15)(e) relating to fishing regulations on inland, outlying and boundary waters.

FH-19-18

Analysis Prepared by the Department of Natural Resources

1. Statute Interpreted: Section 23.09 (2)(c), Wis. Stats. is interpreted as allowing the department to designate fish refuges. Sections 29.014 (1), 29.041 and 29.053 (2), Wis. Stats. have been interpreted as authorizing the department to conserve and regulate the fish supply on waters of the state while continuing to provide opportunities for good fishing.

2. Statutory Authority: Sections 23.09 (2)(c), 29.014 (1), 29.041, 29.053 (2), and 29.403, Stats. authorize these rules.

3. Explanation of Agency Authority: Section 23.09 (2)(c), Stats., provides that the department may designate fish refuges to secure the perpetuation and adequate supply of any species of fish and provide safe retreats in which fish may breed and replenish adjacent fishing waters. Section 29.403 is interpreted as allowing the department to regulate fishing tournaments.

The department is directed under s. Section 29.014 (1), Stats., to establish and maintain any bag limits and conditions governing the taking of fish that will conserve the fish supply and ensure the citizens of this state continued opportunities for good fishing.

Section 29.041, Stats., provides that the department may regulate fishing on and in all interstate boundary waters and outlying waters.

Section 29.053 (2), Stats., provides that the department may establish conditions governing the taking of fish for the state as a whole, for counties or parts of counties, or for waterbodies or parts of waterbodies. It also allows the department to establish a fishing season on specified bodies of water in certain urban areas to allow fishing only by persons who are under 16 years old or who are disabled, as specified in s. 29.193 (3) (a), (b), or (c), Stats.

Section 29.403 (1g) requires the department to authorize and create rules regulating fishing tournaments, including the overall scope of the tournament program. Furthermore, s. 29.403 (4) prohibits the department from authorizing activities for tournament participants but not non-tournament anglers, except that the department may make exceptions for bass tournaments.

4. Related Statutes or Rules: No related statutes or rules apply.

5. Plain Language Analysis:

This rule will serve several purposes, including applying fishing regulations to waters to accomplish management goals, such as improving size structure of game fish, increasing the density or abundance of certain fish species or increasing the survival of mature adults; improving the clarity and consistency of regulations on shared boundary waters with Michigan and Minnesota; establishing statewide regulations that provide harvest opportunity while protecting fish populations; and aligning regulations with public desires for certain waterbodies. Specifically, these rules would accomplish the following.

SECTION 1 establishes sturgeon spear standards for the Lake Winnebago sturgeon spearing season. Currently, there are no regulations on the width or shape of sturgeon spears, and some spearers are concerned that larger, more complex spears do not align with the intent of the traditional sturgeon spearing season.

SECTIONS 2, 27, 29, 80 and 98 revise the statewide daily bag limit for cisco and whitefish to be 10 fish in total rather than the existing weighed measure of 25 pounds plus one fish. No other species of game fish is regulated by weight, and commonly used, inexact estimates of 25 pounds can result in overharvest of fish. A 10-fish bag limit will help maintain stable populations of whitefish and cisco and be consistent with outlying waters.

SECTION 3 modifies the bass regulation for Jordan Lake in Adams County to a 14-18-inch protected slot limit and daily bag limit of 5, and establishes a year-round catch-and-release season for bass with harvest only allowed during the traditional open season from the first Saturday in May to the first Sunday in March.

SECTIONS 4 and 52 reduce the bag limit for northern pike on Amey Pond and Mason Lake to a daily limit of one fish with a minimum length of 32 inches to increase pike abundance and predation on rough fish.

SECTIONS 5 to 11, 14, 17, 20, 26, 27, 28, 29, 30, 38, 41, 44, 45, 46, 48, 49, 50, 51, 53, 54, 57, 60, 61, 62, 64, 65, 68, 69, 71, 73, 75, 76, 77, 80, 83, 85, 86, 87, 89, 90, 93, 100, 106 and 115 establish a statewide, year-round catch-and-release season for bass with harvest only allowed during the traditional open season from the first Saturday in May to the first Sunday in March.

SECTIONS 5 to 8, 12, 23, 28, 31, 39, 40, 50, 56 to 58, 63, 64, 68, 71, 82, 101 and 103 extend the musky season in waters north of U.S. Highway 10 to December 31 (on open water) to provide additional fishing opportunity and make regulations consistent with waters south of U.S. Highway 10. In addition, SECTION 102 clarifies that this change does not apply to Wisconsin-Minnesota boundary waters or Lake Superior.

Commented [O'Brien1]: May want to provide a sentence of context as to the justification for this.

SECTIONS 13, 21, 22, 56, 70, 90, and 94 reduce the bag limit for panfish on several Wisconsin waters to 10 with no size limit to increase the abundance of bluegill and provide a memorable panfish fishing opportunity.

SECTIONS 15, 18, 32, 35, 66, 78, and 79 increase the daily bag limit from 3 to 5 for trout waters managed with a maximum size limit of 12 inches. This will allow harvest of smaller trout while cultivating quality size structure.

SECTIONS 16 and 66 remove the size limit for trout on Plum Run in Crawford and Richland counties and establishes a bag limit of 5 to simplify regulations.

SECTION 17 increases the size limit of trout on Black Earth Creek to increase the abundance of larger trout.

SECTIONS 19, 42, 43 and 67 lower the daily bag limit to 3 and raise the minimum length limit to 18 inches for walleye in Lake Koshkonong, the Crawfish River, the Rock River and their tributaries. This change aims to reduce walleye exploitation to maintain a sustainable population.

SECTIONS 21, 86, 88, 95 and 96 apply a protected slot limit of 25 to 35 inches for northern pike and a daily bag of two to increase the survival and density of larger pike for Lake Emily in Dodge County, Little Lake Butte des Morts in Outagamie and Winnebago counties, Big Cedar and Gilbert lakes in Washington County and Okauchee and Upper Oconomowoc lakes in Waukesha County.

SECTIONS 24 and 25 separate Cady Creek from current regulations (12-inch minimum length limit for brown and rainbow trout and 8-inch minimum length limit for brook trout), and apply a bag limit of 3 and minimum length limit of 8 for all trout to simplify regulations while encouraging quality-sized trout.

SECTION 30 removes the size limit for bass on Roberts Lake in Forest County, establishes a bag limit of 5 bass, and also establishes a catch-and-release season during the remainder of the year outside of the traditional season.

SECTION 32 extends by one mile the area of Castle Rock Creek where a 12-inch minimum length limit and daily bag of 2 for trout is in effect, and bait is allowed. Previously, the regulation was a catch-and-release season for trout on this mile-long segment of the creek with only artificial lures allowed. This section also increases the daily bag limit to 5 for trout streams in Grant County managed with a maximum size limit of 12 inches to allow harvest of smaller fish and cultivate quality size structure.

SECTIONS 33, 97 and 104 decrease the bag limit for walleye and sauger from 5 to 3 on the Winnebago system to protect female walleye and year classes of a certain size which face high fishing pressure. This regulation change impacts waters in Calumet, Fond du Lac, Green Lake, Marquette, Outagamie, Shawano, Waupaca, Waushara and Winnebago counties.

SECTION 34 preserves existing regulations for Maria Lake in Green Lake County, which is separate from the Winnebago system and therefore not included in the update to walleye regulations on the Winnebago system.

SECTION 36 repeals the existing trout regulation for Pompey Pillar and Smokey Hollow creeks, which are moving to the county base regulation of an 8-inch minimum length limit and daily bag of 3.

SECTION 37 establishes a daily bag limit of 5 and no size limit for brown and rainbow trout combined, but all brook trout must be released, on Harker and Lowery creeks in Iowa County. These streams are a wild brook trout broodstock source important to departmental stocking efforts.

SECTION 39 changes the walleye regulation on the Turtle-Flambeau Flowage to a minimum length limit of 12 inches with only one walleye over 15 inches allowed.

SECTION 40 preserves existing regulations on Sherman Lake in Iron County, which did not change with the modification to Turtle-Flambeau Flowage regulations.

SECTION 47 adds Karbergers Springs in Langlade County to the list of waters managed for trout with an 8-inch minimum length and daily bag limit of 3.

SECTION 50 reverts Middle Inlet Creek in Marinette County to the county base regulation of an 8-inch minimum length limit and daily bag limit of 3.

SECTION 54 adds Wheeler Lake to the list of waters managed with a daily bag limit of 5 and no size limit for bass, in order to reduce largemouth bass abundance.

SECTION 55 applies a protected slot limit of 14 to 18 inches with one largemouth bass over 18 inches allowed for harvest, and a daily bag limit of 5, for largemouth bass on Paya Lake in Oconto County to improve size structure.

SECTION 58 increases the musky size limit to 50 inches on the Rainbow Flowage and Minocqua Chain in Oneida County. These proposals originated as citizen resolutions through the Wisconsin Conservation Congress.

SECTIONS 59, 73 and 74 apply a trout regulation of a three-fish daily bag limit and 8-inch minimum length limit to Pine, North Pine and Cady creeks to simplify regulations while maintaining quality-sized trout.

SECTIONS 60 and 61 establishes a daily bag limit of one and minimum length limit of 18 inches for smallmouth bass in Pipe and North Pipe lakes in Polk County to improve size structure and density of smallmouth bass.

SECTION 68 reverts Devils Creek in Rusk County to no size limit and a daily bag limit of 5 for trout, which is the county base regulation.

SECTIONS 70 and 90 apply a protected slot and daily bag of 5 for northern pike on Dutch Hollow, Mirror and White lakes to increase the harvest of smaller pike and preserve more large pike from harvest to improve size structure.

SECTIONS 72, 91 and 92 reduce the daily bag limit to three and increase the size limit to 18 for walleye, sauger and hybrids in waters of Shawano and Waupaca counties to enhance the quality of these stocking-dependent fisheries.

SECTION 81 removes the minimum length limit for bass on Smoky Lake in Vilas County and establishes a protected slot of 14 to 18 inches with one bass over 18 inches allowed for harvest. This will encourage a

quality bass fishery with more abundant large bass, and is consistent with Michigan's proposed regulation. This section also creates a bass season on Plum Lake that is consistent between Wisconsin and Michigan.

SECTIONS 83 and 84 removes the size limit for pike on Geneva Lake and applies a bag limit of 5 to increase harvest of smaller pike and improve size structure.

SECTION 90 revises the bass regulation on Hatch Lake in Waupaca County to a minimum length limit of 18 and a bag limit of one fish. This regulation aims to increase largemouth bass abundance and, through increased predation, decrease the abundance of bluegill to improve bluegill size and growth rates.

SECTION 99 increases the minimum length limit of lake sturgeon on Lake Superior to 60 inches to protect the self-sustaining population of lake sturgeon while allowing opportunity for limited harvest.

SECTION 105 provides that the department can, by permit, allow participants in a catch-and-release bass fishing tournament to adhere to the statewide regulation of a 5-fish daily bag limit and 14-inch minimum length limit in lieu of special regulations, as long as the bass are released back to the water from which they were caught. This would provide flexibility to tournament participants, since some size and bag limit regulations on certain waters would result in very few fish available for entry in the tournament.

SECTION 107 and 114 establish Mississippi River regulations for walleye and sauger that are consistent between Wisconsin, Minnesota and Iowa and address walleye size structure issues and declining sauger abundance.

SECTION 108 establishes Mississippi River regulations for northern pike that are consistent between Wisconsin and Minnesota and help mitigate harvest of trophy northern pike, especially during summer and winter when pike are more concentrated.

SECTION 109 reduces the bag limit to 15 each for sunfish, crappies and yellow perch on the Mississippi River. A daily bag limit of 15 for each of the three types of panfish could help reduce exploitation of panfish.

SECTION 110 and 111 establish a bag limit of 10 for white bass to reduce harvest pressure on white bass on the Mississippi River and provide consistent regulations with Minnesota, while retaining the existing regulations for yellow and rock bass. White bass are a popular panfish species and are frequently targeted on the Mississippi River.

SECTION 112 reduces the bag limit for catfish on the Mississippi River to 10 combined and establishes that only one catfish over 30 inches may be harvested. These regulations would be consistent between Wisconsin and Minnesota.

SECTION 113 decreases the shovelnose sturgeon bag limit to 3 on the Mississippi River, which would protect shovelnose sturgeon from overharvest, particularly as demand for caviar increases, and would result in consistent regulations between Wisconsin and Minnesota.

SECTION 116 revises the musky season on the Wisconsin-Michigan boundary waters to run from June 1 to December 31 on open water, with an early catch-and-release season occurring from January 1 to May 31. This section also increases the minimum length limit for musky on most Wisconsin-Minnesota boundary waters to 50 inches.

SECTION 117 extends the time when the Fox River fish refuge in Brown County is closed so that fishing

will not be allowed through the end of May, which will protect spawning lake sturgeon and musky that also occupy the area in the spring from disturbance from anglers.

SECTION 118 creates a fish refuge on the Mink River in Door County from early March to June 15 to protect spawning bass.

SECTION 119 modifies the fish refuge season on the St. Louis River to run until the Saturday nearest Memorial Day. This will help maintain the naturally reproducing walleye population and match regulations with Minnesota.

6. Summary of, and Comparison with, Existing or Proposed Federal Statutes and Regulations:

No federal regulations apply. States retain management authority over the fish and wildlife resources within state boundaries provided that state regulations do not conflict with regulations established in the Federal Register. None of these rule changes violate or conflict with the provisions established in the Federal Code of Regulations.

7. Comparison with Similar Rules in Adjacent States:

Individual state or provincial agencies are responsible for managing fisheries within their state boundaries and each jurisdiction has their own decision-making process. Wisconsin's approach to fisheries management and our regulations are comparable to that of our surrounding states. Additionally, several items contained in this rule were developed in collaboration with the natural resources agencies of Minnesota and Michigan to improve consistency in regulations on boundary waters between the two states.

8. Summary of Factual Data and Analytical Methodologies Used and How Any Related Findings Support the Regulatory Approach Chosen:

With this rule, the department will make changes to certain fish size limits, bag limits, seasons, and other regulations related to fishing in inland, outlying, and boundary waters. Fishing regulations are in place to help meet management goals and objectives for fish populations in waters of the state. Examples include providing a trophy walleye fishery or a bass fishery that maximizes predation on smaller fishes. New regulations are proposed when management goals have changed or the department must address a critical need, such as a fish population decline.

This rule also incorporates several changes to regulations on shared boundary waters with Michigan, Minnesota and Iowa. These changes are the product of discussions between the three states and Wisconsin to achieve consistent regulations that factor in biological data and public desires for the respective fisheries. Consistent regulations contribute to a uniform management strategy for each regulated boundary water species and also reduce confusion for anglers and law enforcement officers on those waters.

The regulation proposals included in this rule are based on surveys and analyses conducted by fish biologists and input from local stakeholders and the Wisconsin Conservation Congress. All proposals are peer-reviewed for justification, enforceability, and completeness by department Bureaus of Fisheries Management, Law Enforcement, and Legal Services.

Based on the management goals for individual waters and species, the department strives to provide:

- consumptive opportunities where anglers can fish for a meal from a self-sustained, slow-growing fish population;

- quality and memorable opportunities where anglers can catch large fish and the density of adult fish in the populations are sustained or increased; and
- trophy opportunities where anglers can catch large trophy-size fish and the survival of older and larger fish is increased.

Most recreational fishing regulation changes are updated in Administrative Code every two years. Forestalling the proposed rule changes would result in less than optimal management of fish populations in the waterbodies and reduced fishing opportunities for resident and visiting anglers. However, existing regulations would remain in place to provide some level of continued protection of fish resources.

9. Analysis and Supporting Documents Used to Determine the Effect on Small Business or in Preparation of an Economic Impact Report:

It is not expected that there will be any economic impact or change directly related to these rule changes (Governor's Executive Order 50, level 3 economic impact analysis of minimal to no economic impact less than \$50,000). The proposed rule will primarily affect recreational anglers. Regulations are already in place and this rule is intended to continue protection and enhancement of the state's fish resources. One purpose of the rule is to help maintain the general, beneficial economic impact of fishing throughout Wisconsin.

The department has prepared a preliminary economic impact analysis and will gather public comments in March, 2019 to determine if any individuals, businesses, local governments, or other entities expect to be adversely affected economically by the rule.

10. Effect on Small Business (initial regulatory flexibility analysis):

The proposed rule would not impose any reporting requirements on small businesses nor would any design or operational standards be contained in the rule. The rule would not allow for the potential to establish a reduced fine for small businesses, nor would it establish "alternative enforcement mechanisms" for "minor violations" of administrative rules made by small businesses.

~~preceding the third Saturday in June~~ 5 in total

~~5 in total for the third Saturday in June to December 31~~

January 1 to the Friday preceding the third Saturday in June

0 for smallmouth and largemouth bass

None

Commented [PMC23]: Check and see if this should follow the WI-MI regulation or the statewide bass regulation that would allow catch-and-release all year and harvest only during the harvest season (Jan. 1 to the Friday preceding the third Saturday in June for yr-round C&R) – depends on outcome of SH voting
