Applicants for license to practice medicine and surgery shall present satisfactory evidence of good moral and professional character, and of having completed a preliminary education equivalent to graduation from an accredited high school of this state, and also a diploma from a reputable professional college. Applicants for license to practice medicine and surgery shall present to the board a diploma from a reputable medical or osteopathic college with standards of education and training substantially equivalent to the university of Wisconsin medical school, approved and recognized by the board. Before approving and recognizing any such college or school, the board shall conduct an investigation and during the course thereof shall hold a public hearing, with notice to all interested parties, at which any person may be heard. The board may designate an agent, including one or more board members, to conduct a portion or all of such investigation to determine the facts upon which the board shall make its findings. The findings and any action taken by the board with reference to approval or recognition of a school or college may be reviewed in the manner provided in ch. 227. The applicant shall present also satisfactory evidence of having completed a college course in physics, chemistry and biology, substantially equivalent to the premedical course at the university of Wisconsin, and if the professional college from which a diploma is presented does not require for graduation a hospital internship of at least 12 months in addition to a 4 years' course, a certificate of completion of such internship in a reputable medical or osteopathic hospital. Each applicant shall file a verified statement that he is familiar with the state health laws and the rules and regulations of the state board of health relating to communicable diseases. The application shall be accompanied by a fee, to be fixed by the board at not more than * * * \$45 and \$5 additional for license if issued. An immigrant applicant shall present satisfactory evidence of having first citizenship papers, and if his professional education was completed in a foreign college, the application shall be accompanied by a fee of \$75, and the further fee of \$5 upon the issuance of license shall not be required. 147.17 (1) If 6 members find the applicant for license qualified, it shall issue a license to practice medicine and surgery, signed by the president and secretary-treasurer and attested by the seal. Before granting a license by reciprocity, the board shall conduct an investigation in the manner provided in s. 147.15 to determine whether the requirements for licensure in the state in which the applicant for reciprocity is licensed are equivalent to those of this state. If it finds that the requirements in an-

other state are equivalent to those of this state, the board may issue a license to practice medicine and surgery without written examination to a person holding a license to practice medicine and surgery, or osteopathy and surgery, in such other state, upon presentation of the license and a diploma from a reputable professional college approved and recognized by the board, or an honorably discharged surgeon of the armed services of the United States, or of the federal public health service, upon filing of a sworn and authenticated copy of his discharge; provided that such discharge was within one year of such application for license by reciprocity in lieu of its own examination, the board may accept, either in whole or in part, the certificate of the national board of medical examiners. At the time of making such application the applicant shall pay a fee of * * * \$25. The board may also issue without examination a permit to practice physical therapy for not to exceed 6 months to any person who meets the qualifications of this section upon certification that he has been assigned to this state on a temporary basis to assist in a medical emergency and upon the payment of a \$2 permit fee.
