- Ins 2.05 Total permanent disability benefits in life insurance premiums and reserves
- Ins 2.06 Credit life insurance
- Ins 2.07 Replacement of life insurance policies; disclosure requirements
- Ins 2.08 Special policies and provisions; prohibitions, regulations, and disclosure requirements

2.09 Separate and distinct representations of life insurance

Ins 2.01 Estoppel by report of medical examiner. No company or fraternal benefit society shall issue in this state a contract, based on a medical examination, providing for disability benefits, the provisions of which are in conflict with section 209.07, Wis. Stats., or shall indulge in any practice which is at variance with said section.

insurance

Ins 2.02 Stock life insurance corporations writing participating policies. (1) PURPOSE. The repeal of the rule previously in effect and the adoption of this rule is for the purpose of revising the formal interpretation of certain statutes consistent with statutes and business methods now in existence. This rule implements and interprets applicable statutes including sections 201.045, 201.34, 201.50, 201.54, 206.13, 206.27 to 206.32, 206.36, 206.48, 206.51 (1), and 207.04 (1) (a), Wis. Stats.

Ins 2.10 "In the prime in quality" definition of Ins 2.11 Ins 2.12 Exceptions to transfer documents

(2) SCOPE. This rule shall apply to stock insurance corporations when transacting the kinds of insurance authorized by section 201.04 (3), Wis. Stats., in the form of participating policies.

(3) LIMITATION OF PROFITS INURING TO THE BENEFIT OF STOCKHOLDERS. The protection of the interest of the public purchasing participating policies and contracts issued by stock life insurance corporations requires a reasonable limitation of the profits on participating business that shall be made available to stockholders. In consideration of the amount of life insurance customarily transacted in relation to the capital contribution of stockholders and to safeguard the interest of policyholders in this state, no profits on participating policies and contracts in excess of the larger of (a) 10% of such profits or (b) 50¢ per year per \$1,000 of participating life insurance in force at the end of the year shall inure to the benefit of stockholders.

(4) LICENSE REQUIREMENTS. No stock life insurance corporation doing business in this state in which policyholders are entitled to share in the surplus shall be licensed or relicensed to transact business in this state unless the corporation shall file an agreement (evidenced by a resolution of its board of directors or other appropriate body having the power to bind such corporation and its stockholders) to the effect that:

(a) no profits on participating policies and contracts in excess of the larger of

1. 10% of such profits or
 2. 50¢ per year per \$1,000 of participating life insurance in force at the end of the year
- shall inure to the benefit of stockholders

(b) the profits on its participating policies and contracts shall be ascertained annually by allocating to such policies and contracts specific items of gain, expense, or loss attributable to such policies and contracts and an equitable proportion of the general gains or outlays of the company

(c) such profits as shall inure to the benefit of stockholders shall be determined and apportioned annually

(d) The accounts of the participating and nonparticipating classes will be kept separate.

(e) No part of the funds accumulated or belonging to the participating class shall be transferred to the nonparticipating class.

(f) The agreement shall remain in effect so long as any outstanding participating policies or contracts of such company are held by persons resident in Wisconsin except as the applicable requirements of statute or administrative rule may be modified or superseded by subsequent enactments.

Note: Before issuing a new or renewal license to transact insurance in this state, the commissioner of insurance is required by sections 201.045 and 201.34, Wis. Stats., to be satisfied that the methods and practices of the insurer adequately safeguard the interests of its policyholders and the people of this state. Section 206.13, Wis. Stats., provides for the issuance of participating life insurance policies by stock companies.

The nature of participating policies is that the premium charge includes an additional loading which acts as the safety factor to provide for various contingencies that may develop during the term of the policy. The additional premium thus collected is then returned to the policyholder in the form of dividends. Section 201.36, Wis. Stats., provides for the annual apportionment and return of such sums after making provision for required reserves and liabilities.

In respect to those policies in which the policyholder is entitled to share in the surplus, section 206.36, Wis. Stats., provides for the payment of authorized dividends on capital stock from the surplus accumulations of the participating business of the company. Section 201.54, Wis. Stats., authorizes distribution of savings, earnings, or surplus to any class of policyholder by filing a schedule thereof with the commissioner in those cases where such a distribution was not specified in the policy. In such cases the commissioner has an obligation to be satisfied that the methods and practices of the company are such as to safeguard the interest of the policyholders.

The principal portion of the earnings on participating policies is due to the additional loading in the premium charged for the policy. It would be a misrepresentation of the participating provisions of any such policy or contract if a substantial portion of the profits accruing from such policies or contracts were not to be returned to the policyholders. Sections 206.51 (1) and 207.04 (1) (a), Wis. Stats., prohibit the misrepresentation of the dividends or share in surplus to be received on any policy.

It is evident that a stock insurance corporation should not have complete freedom in determining the amounts that are to be removed from the funds accumulated or belonging to the participating class of policyholders and used for the benefit of stockholders. A reasonable limitation in the amounts that shall inure to the benefit of stockholders is necessary for the fair and equitable treatment of stock life insurance corporations, stockholders, and policyholders. We find that section 216 (6) of the New York insurance statutes provides for a limitation comparable to that stated in the rule. The record in that state indicates such a limitation to be reasonable and workable and we believe it to be a proper safeguard of the interests of the people of this state.

(5) EXCEPTIONS. In accordance with section 206.13 (3), Wis. Stats., the agreement required by subsection (4) (e) of this rule may be modified to the extent necessary to be consistent with the existing charter of the stock life insurance corporation.

(6) ANNUAL FILING. No stock life insurance corporation doing business in this state in which policyholders are entitled to share in the surplus shall be licensed or relicensed to transact business in this state unless the corporation shall annually file the information required by sections 206.14 (1), 206.27 (Schedule 14, S.), and 206.48, Wis. Stats. Section 206.14 (1), Wis. Stats., does not apply to domestic stock life insurance corporations.

Ins 2.03 Policies not dated back to lower insurance age. (1) No company shall issue for delivery in this state any policy or contract of life insurance which purports to be issued or to take effect as of a date more than six months before the application therefor was made, if thereby the premium on such policy or contract is reduced below the premium which would be payable thereon as determined by the nearest birthday of the insured at the time when such appli-

properly be considered as engaging in activities which are "in the same industry".

Note: The above rule is an outgrowth of the hearings held by the department on December 17, 1963, to consider the formulation of rules and guide lines which insurance companies could use to determine what groupings of employers might be permitted by the phrase "in the same industry" in sections 206.60 (4) and 204.321 (1) (c), Wis. Stats., to obtain group insurance coverage for their employees through the establishment of a trust. As a result of the hearing, the department has reviewed the background and history of the "in the same industry" provision which was adopted as a part of the "Group Life Insurance Definition" and "Group Life Insurance Standard Provisions", revised at New York on December 15, 1948, by the National Association of Insurance Commissioners and enacted as a part of the Wisconsin Statutes in 1949. The department has concluded that the phrase "in the same industry" should be liberally construed. It provides a means whereby a small employer, not having a sufficient number of employees to qualify for a group plan of his own, may join with others and provide the benefits of group insurance to his employees and thereby compete in the labor market with the large employer. It has been emphasized to the department that the statutes involved are insurance statutes and that there is no underwriting reason which dictates greater detail or narrower classifications under the law. To require a more detailed breakdown only has the effect of adding to the administrative detail and expense of setting up such a plan, and such does not appear to be required nor in the public interest.

The rule applies only to organizations engaged in activities other than manufacturing. Companies underwriting multiple employer trusts for employees engaged in manufacturing shall be guided by the opinions of the attorney general of the state of Wisconsin, dated January 16, 1958, and December 30, 1958 (47 OAG 16 and 47 OAG 326).

For a general guide as to the types of organizations which fall within each of the groupings listed in subsection (1) of this rule, the department suggests that insurers refer to the division headings found in the "Standard Industrial Classification Manual" prepared by the United States Bureau of the Budget, Technical Committee on Industrial Classification, Office of Statistical Standards, 1957, and to other similar material such as the industrial classification starting on page XI of the "U.S. Census of Population 1960—Classified Index of Occupations and Industries," published by the United States Department of Commerce, Bureau of the Census, 1960; and Volume V, No. 1, "Wisconsin Commerce Reports," Bureau of Business Research and Service, Madison, Wisconsin, April 1, 1957.
